WELCOME TO NAACCR 2015

Welcome to NAACCR 2015!

On behalf of the Board of Directors, the Program Committee welcomes you to the 2015 Annual Conference of the North American Association of Central Cancer Registries, Inc. (NAACCR) being held in Charlotte, North Carolina. We hope you will enjoy participating in the conference and pre-conference sessions and take advantage of the educational activities available during the 2015 Annual Conference.

The theme for the 2015 Conference is “First in Flight: Launching a New Era in Cancer Surveillance.” The goals of this conference are to highlight the changing landscape of cancer surveillance and research activities and explore the new era and opportunities to enhance cancer surveillance. This year’s plenary themes include “Launching a New Era in Cancer Research,” “Big Data,” “Launching a New Era of Registry Operations” and “Intersection of Public Health Surveillance and Clinical Medicine.”

The concurrent sessions of the conference will cover a wide range of topics such as enabling research, cancer genomics, tissue repositories, Virtual Pooled Registry, big data, innovations in central cancer registry operations, working sessions on XML structured data and a vision of using cancer registries to improve cancer control.

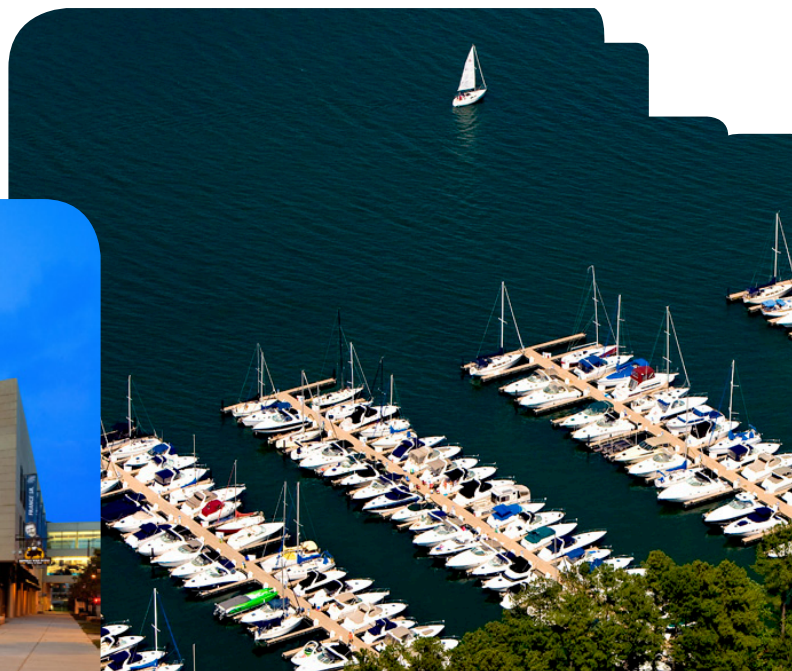

The 2015 Conference is being held at the Westin Charlotte, situated in the heart of the city’s central uptown district and home to a wealth of cultural and entertainment centers. Some of the nearby attractions include the Mint Museum Uptown, NASCAR Hall of Fame, Bank of America Stadium (home of the Carolina Panthers), Time Warner Arena (home of the Charlotte Bobcats), the new Bechtler Museum of Modern Art, Wells Fargo History Museum and the Harvey B. Gantt African American Cultural Center. In addition, there are a host of dining and entertainment venues, just a few blocks away.

We hope that you will have a great experience at this year’s conference and make it a memorable one.

WELCOME FROM THE PRESIDENT

Dear NAACCR Members and Guests;

Welcome to Charlotte, North Carolina for the NAACCR 2015 Annual Conference. As you know our theme this year is *First in Flight: Launching a New Era in Cancer Surveillance*. This is a perfect metaphor for our program. Orville and Wilbur Wright felt the Outer Banks of North Carolina was the perfect place to test their new flying machine. Capturing the Wright brothers' spirit, Charlotte will be the perfect place to showcase our new flying machines that is, our advances in cancer surveillance and control through new approaches, new methodology, new partners and new technology.

As the diagnosis, treatment and overall management of cancer rapidly evolve, we as surveillance professionals must keep up with the science. Our data systems are working smarter. Our operational approaches to 'completeness, timeliness and quality' are embracing new methodology. We are joining forces with partners in different fields and attacking our issues through a multi-disciplinary approach. The value of our population-based research is expanding. We must not take our foot off the gas pedal.

This year's program committee has done an outstanding job in bringing together an amazing program that will share and highlight some exciting new approaches in different areas of cancer surveillance. Just as the Wright brothers continued the advancement of aviation science with their first 12 second flight in 1903, so too will the NAACCR professionals continue the advancement of cancer surveillance and cancer control in 2015 and beyond. Just think what our technology allows us to do in 12 seconds.....

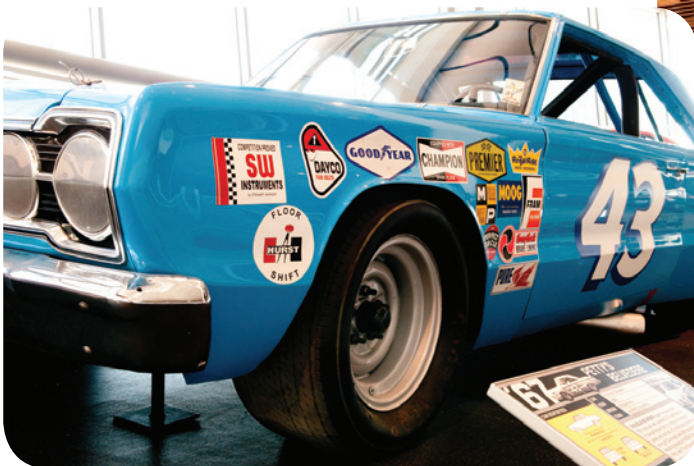

Thank you for your support of NAACCR and for participating in this wonderful meeting located in an amazing city. I hope you will enjoy your time with us.

Best Wishes,

Jill A. MacKinnon, PhD, CTR
