What is the purpose of the Steering Committees?
The Steering Committees lead each of NAACCR’s five priority areas - Strategic Alliances, Standardization & Registry Development, Research & Data Use, Communications, and Professional Development. To encourage related groups to work collaboratively and more effectively on cancer surveillance issues, existing groups were combined under each priority area to reduce duplication of effort and bring new focus and energy.

How do the Steering Committees function?
Steering Committees determine what additional structures such as work groups and task forces are needed under each priority area to ensure work is carried out. Additionally, each Steering Committee is supported by a priority area network or PAN of interested members to assure success in meeting Strategic Management Plan goals.

How have the Steering Committees progressed?
The following is an overview of their progress. Please click the Steering Committee name for additional information about the respective Steering Committees including a list of all active work/task groups. The table below is organized into Goals, Objectives and Activities as depicted below.

PURPOSE / GOALS

Develop and strengthen internal and external NAACCR communications and bring a greater awareness of NAACCR member interests to wider audiences.

ACHIEVEMENTS AND ACTIVITIES OVER THE PAST YEAR

The Communications Steering Committee has maintained its membership and continues to be a vibrant voice for NAACCR members and a sounding board for NAACCR staff regarding communication initiatives.

The Narrative Working Group, led by Annette Hurlbut, Elekta Impac Software, regularly engages WG members to work collaboratively and improve the reader experience through story/column ideas and format changes for The Narrative. An unflagging editor, Ms. Hurlbut was an invaluable asset during the new production procedures. Four quarterly issues have been produced this year.

The Social Media Working Group, led by Dan Curran, C/NET Solutions of the Public Health Institute, has done a tremendous job of managing the organization’s social media presence. To highlight social media and to bolster user confidence and uptake, Mr. Curran developed and presented a how-to Twitter webinar this spring. It was very well attended. NAACCR intern Bhavika Kothary provided research support for the webinar and was also a presenter. The Social Media WG also now offers Twitter support (the “Twitter Reporter”) to registries who want to share information but may not have access to the social media platform through their own agencies.

As well, both WGs work in partnership with NAACCR to develop content and move NAACCR’s use of web-based and tech-driven communication systems forward.

The CSC worked cooperatively to write, edit and produce a web-based “explainer video” - an animated, professionally voiced video highlighting the organization’s work for a public audience. The debut is planned for the 2014 annual conference.

The CSC organized and planned the annual NAACCR conference giveaway items. The Social Media Working Group also developed a campaign for members to promote the conference using social media. Additionally, CSC members will be attending the Communications booth along with NAACCR staff to interact with members, promote Twitter participation, and recruit writers and Narrative contributors.
FUTURE PLANS

The Communications Steering Committee started small and worked within the Committee to develop materials to promote the 2014 conference, including reaching out to other organizations to publicize the event. Now, the CSC aims to develop a communications plan framework to further promote NAACCR to internal and external audiences.

ACKNOWLEDGEMENTS

The Communications Steering Committee is an outstanding collection of energetic people dedicated to improving how NAACCR members communicate with each other and sharing the work the organization does with the world.

Definitely an amazing team!
## Purpose / Goals

Develop a Comprehensive Training Program to provide registry professionals with the knowledge and skills to operate a high quality cancer surveillance program.

## Achievements and Activities Over the Past Year

Objective 1: Expand training modules using existing resources, volunteer member faculty and talks captured from the annual conference.
1. NAACCR Surveillance Webinars focus on methodological issues in cancer surveillance. The first installment, “Measuring the Burden of Cancer”, was held on Wednesday, March 5th, 2014. It was conducted by Chuck Wiggins, Ph.D., Director and Principal Investigator for the New Mexico Tumor Registry.
2. The NAACCR Journal Club is presenting a series of webinars. The first meeting of the Journal club on Friday, February 21, 2014 was the presentation, “Investigating Suspected Cancer Clusters and Responding to Community Concerns”, led by Dr. Lauren Lewis, M.D., M.P.H., from the Health Studies Branch at the CDC’s National Center for Environmental Health.

Objective 2: Design and organize a comprehensive training curriculum that focuses on core professional skills, competencies and best practices for cancer surveillance professionals.
1. The PDSC is working on implementation of a comprehensive education and training plan for NAACCR that strengthens the professional development of its members and the cancer surveillance community overall. The plan includes core competency areas for cancer registry and surveillance. Task forces for each core competency area will be formed. Before forming the core competency task forces, the PDSC will develop an education and training outline for the data collection core competency area that can be used as a template for the task forces developing the other core competency plans. PDSC members are currently working on a spreadsheet to document education needed, resources available, and gaps in education for the data collection core competency. Once this process is done, task forces for other core competency areas will be formed.
2. Core Competency Areas for Central Cancer Registries
   a. The Fundamentals of Surveillance
   b. Data Collection
   c. Quality Assurance
   d. Data Management
   e. IT/Databases
   f. Statistics/Analysis/GIS
   g. Education and Training
   h. Communications
   i. Management
3. Core competency area task forces will need to:
   a. Determine the topics to include
   b. Identify the audience
   c. Identify basic, intermediate, and advanced skills for the topic areas
   d. Identify and assess educational resources that are available for the topic areas
   e. Identify educational gaps for the topic areas and how to address those.
FUTURE PLANS

Complete objectives 1 and 2.

Objective 3: Identify, assess and acquire training delivery platforms that support the comprehensive training program.
Status: Activity on this objective has been deferred to a future date, after objective 2 has been accomplished.

Objective 4: Identify outside funding resources to support the comprehensive training program through planning and implementation stages of development.
Status: Activity on this objective has been deferred to a future date, after objective 2 has been accomplished.
