NAACCR 2019, Vancouver

SEER Data Viewer & NAACCR XML

Handling NAACCR XML data files with the SEER Data Viewer.

Introduction

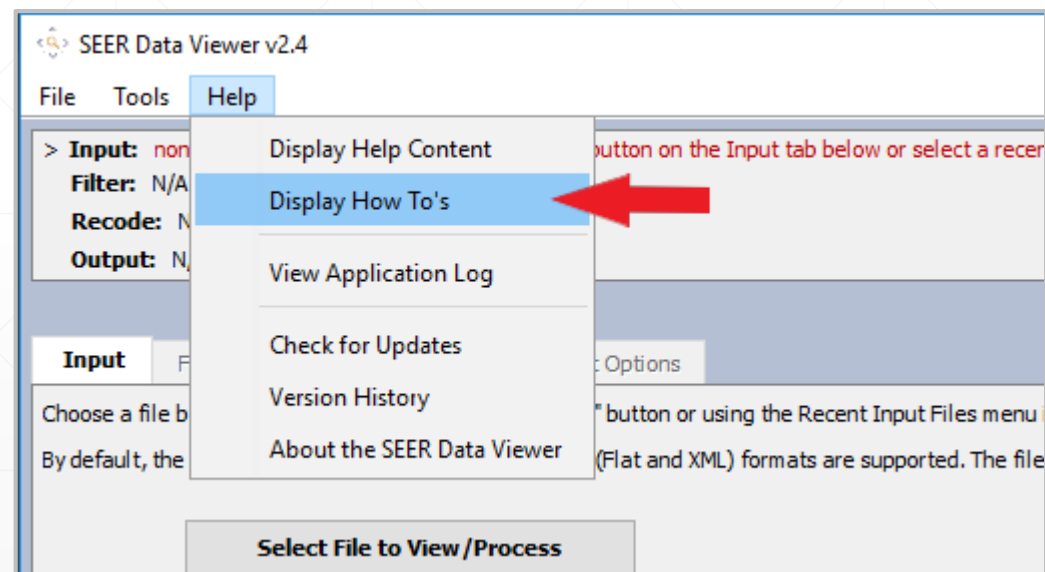

- NAACCR XML transition was/is a big undertaking for the NAACCR community.
- The ecosystem around that new format is still being developed.
- The more “utility tools”, the better.
- The SEER Data Viewer is one of those tools meant to help the community.

About the SEER Data Viewer

- Free of charge (but you have to register with your email):
<https://seer.cancer.gov/tools/dataviewer/>
- Not meant to be a “one-button-solution” but rather a flexible tool that can tackle many situations.
- Support for NAACCR XML was added in January 2019 and is still being improved.

New How To's Help System

- Introduced for the purpose of this presentation.
- Accessible via the Help menu (as of version 2.4).
- Will be maintained and expanded with the software.

Topics Covered in this Presentation

- Preview the content of a NAACCR XML data file
- Convert a NAACCR XML data file to Fixed-Columns
- Convert a NAACCR XML data file to CSV for SAS
- Add calculated fields to a NAACCR XML data file
- Compare two NAACCR XML data files
- Run SQL queries on a NAACCR XML data file
