Angela Meisner: Hello, is that Kyle I see

2

00:01:44.370 --> 00:01:45.360

Angela Meisner: Good morning. It's Angela.

3

00:01:47.520 --> 00:01:49.770

kziegler: Angela. This is Kyle. How are you doing,

4

00:01:52.410 --> 00:02:03.630

kziegler: I'm doing fine. I was gone for six, seven weeks with my back surgery right came back to work this weekend acumen stomach flu.

5

00:02:06.600 --> 00:02:06.930

kziegler: Here.

6

00:02:07.980 --> 00:02:10.020

kziegler: Can't catch a big question break

7

00:02:12.210 --> 00:02:17.820

kziegler: Right, I'm doing very well today. I'm actually feeling defense. I have since Friday so

8

00:02:19.830 --> 00:02:21.210

I hope you feel better soon.

9

00:02:22.410 --> 00:02:37.590

Angela Meisner: Oh, great. Yeah, I've never was. I was just asked from Friday. If I was going to take me time off around the holidays. And I was like, no, I've been gone for seven days or seven week my boss was like no, you need time off. That's the difference.

10

00:02:40.410 --> 00:02:44.250

kziegler: I don't know what I was laying in bed. The other day that like actually keeping

11

00:02:45.870 --> 00:02:51.090

kziegler: Anyways, HOW ARE YOU. I HAVE TO lately I'm

12

00:02:52.740 --> 00:02:55.740

kziegler: Having a heck of a time at the, oh, I've got a question for you.

13

00:02:56.970 --> 00:02:57.930

Angela Meisner: The board homework.

14

00:02:57.990 --> 00:03:02.010

kziegler: That was doing December the six. One was the policy procedures, right.

15

00:03:02.370 --> 00:03:02.760

Correct.

16

00:03:03.780 --> 00:03:07.470

Angela Meisner: Well, we need another one. And I see Charlie's on yeah the survey high

17

00:03:09.030 --> 00:03:09.510

Charlie Blackburn: Survey.

18

00:03:10.860 --> 00:03:12.330

kziegler: The survey. Okay.

19

00:03:13.530 --> 00:03:13.890

kziegler: Why was

20

00:03:14.760 --> 00:03:17.160

Charlie Blackburn: I forwarded your comments to Lori Swain. So we'll get

21

00:03:17.790 --> 00:03:22.440

Charlie Blackburn: Let her look at those incorporate where she's had a lot of good suggestions in there. Thanks.

22

00:03:22.890 --> 00:03:31.290

Angela Meisner: Awesome. So it's the the survey and the other one was the policies. Oh, the policies. I don't know. I don't think I did that.

23

00:03:32.880 --> 00:03:40.110

kziegler: Policy. Okay, the only member and I don't know why I couldn't remember the other one but

24

00:03:42.000 --> 00:03:42.630

Charlie Blackburn: In the same boat.

25

00:03:45.030 --> 00:03:48.000

Angela Meisner: Yeah, that's when I started to go through those yesterday, the

26

00:03:48.120 --> 00:03:52.920

Charlie Blackburn: Changes that we got from others and we're going to try and finish them up today. So we get into the board.

27

00:03:54.090 --> 00:03:55.110

Charlie Blackburn: Time to look at. So

28

00:03:56.430 --> 00:03:57.270

Charlie Blackburn: Hopefully we'll get there.

29

00:04:00.360 --> 00:04:01.980

Angela Meisner: We'll get better soon. Kyle.

30

00:04:03.720 --> 00:04:05.760

kziegler: gatekeeper get a break already

31

00:04:07.620 --> 00:04:11.280

kziegler: Looking forward to being back to normal. G. Yeah, yeah, that

32

00:04:13.860 --> 00:04:20.010

kziegler: Is just kicks you in that it comes out of nowhere to and I just felt like, why is this

33

00:04:21.150 --> 00:04:22.050

kziegler: happening to me.

34

00:04:23.310 --> 00:04:24.120

kziegler: Now, my God.

35

00:04:25.020 --> 00:04:25.500

Oh well.

36

00:04:27.300 --> 00:04:28.200

kziegler: I survived.

37

00:04:44.550 --> 00:04:46.170

Charlie Blackburn: Go on mute, for just a minute.

38

00:04:46.980 --> 00:04:47.820

kziegler: I know Melanie's

39

00:04:47.910 --> 00:04:48.780

kziegler: not here yet so

40

00:05:04.650 --> 00:05:05.160

kziegler: Angela.

41

00:05:06.990 --> 00:05:07.950

Angela Meisner: It's been cold.

42

00:05:09.570 --> 00:05:11.580

Angela Meisner: Mode yet yeah we got a

43

00:05:11.730 --> 00:05:17.760

Angela Meisner: Few days of snow, which is a little before Thanksgiving, which is earlier than we usually

44

00:05:18.840 --> 00:05:19.260

Angela Meisner: Get it.

45

00:05:21.150 --> 00:05:22.530

Angela Meisner: So that was a little weird.

46

00:05:23.430 --> 00:05:25.140

kziegler: We went through.

47

00:05:26.610 --> 00:05:27.870

Angela Meisner: The entire month

48

00:05:27.930 --> 00:05:38.940

kziegler: Of November, without any raid, which is i, the last time that happened was 1985 and then the first week of December we made up all that right

49

00:05:40.500 --> 00:05:41.130

kziegler: On one day.

50

00:05:42.210 --> 00:05:42.780

kziegler: What what

51

00:05:43.980 --> 00:05:49.590

kziegler: Oh, well, yeah, it was crazy and but we need it. So I'm happy. It's nice to hear

52

00:05:50.280 --> 00:05:56.130

Angela Meisner: Yeah, that's, that's the way we are, if we get a lot of rain we we definitely do not complain about it.

53

00:05:57.270 --> 00:05:58.140

15127767111: Is Melanie

54

00:06:00.450 --> 00:06:00.990

15127767111: Melanie

55

00:06:01.980 --> 00:06:02.580

kziegler: How are you guys

56

00:06:03.450 --> 00:06:05.070

15127767111: Good, how are you. Oh.

57

00:06:06.330 --> 00:06:07.200

kziegler: Yeah, find

58

00:06:07.710 --> 00:06:09.540

15127767111: Dizzy sure you guys are too.

59

00:06:10.980 --> 00:06:19.470

15127767111: I am I actually need our meeting to be 30 minutes today, but I thought it was better to have a 30 minute to cancel.

60

00:06:30.510 --> 00:06:40.170

kziegler: Schedule my agenda, unfortunately. Sorry, I didn't get that to you. I actually seen a volume five to you. I have

61

00:06:42.120 --> 00:06:45.870

kziegler: An email out to resend it to make sure that I have the latest version.

62

00:06:46.530 --> 00:06:47.430

15127767111: And

63

00:06:47.520 --> 00:06:52.500

kziegler: Press Release so we can all chat about that when that happens. Okay.

64

00:06:52.800 --> 00:06:53.940

15127767111: Well, since we

65

00:06:54.960 --> 00:07:04.770

15127767111: See here, I'm still logging on to zoom and I heard, I heard from both Susan and Chandrika and they won't be able to join us, but they gave me

66

00:07:05.670 --> 00:07:06.720

15127767111: An update

67

00:07:07.770 --> 00:07:16.860

15127767111: And so we still have their stuff. And so I have Kyle. And of course, Katie and may well do I have on the phone, Angela.

68

00:07:16.890 --> 00:07:18.060

Angela Meisner: My nurse on the phone.

69

00:07:18.840 --> 00:07:20.340

15127767111: Hi, Angela. The morning

70

00:07:20.880 --> 00:07:21.780

Charlie Blackburn: Yeah. Charlie's here.

71

00:07:22.680 --> 00:07:22.980

15127767111: Thanks.

72

00:07:23.880 --> 00:07:26.790

16146441844: And Lynn Gilligan's Island.

73

00:07:27.360 --> 00:07:34.680

15127767111: The morning as Tyler on. Yes, I'm here. Okay, great. Okay, well let's go ahead and get started then.

74

00:07:35.250 --> 00:07:35.550

Oh,

75

00:07:36.630 --> 00:07:38.670

15127767111: Oh I'm sorry, Dan. Great. Thank you.

76

00:07:39.900 --> 00:07:43.440

15127767111: Okay, so I got to offer everybody down there.

77

00:07:43.440 --> 00:07:44.010

And

78

00:07:45.210 --> 00:07:47.520

15127767111: You know my minutes were very abbreviated

79

00:07:48.090 --> 00:08:02.190

15127767111: And for some weird reason why I've been challenged with marking down, who's president. And so I was going to ask. I wanted to ask you all. If I had gotten it wrong or correct if you were

80

00:08:03.030 --> 00:08:09.570

15127767111: If you wouldn't mind looking especially at the minute son who was present because I had to do it from memory, and I don't think I did it very well.

81

00:08:15.540 --> 00:08:15.960

kziegler: Okay.

82

00:08:16.290 --> 00:08:18.510

15127767111: Hearing them and I'm not, I will

83

00:08:19.890 --> 00:08:26.910

15127767111: I think it's close enough. If it's not completely accurate and in terms of the action items we had a few

84

00:08:27.960 --> 00:08:30.870

15127767111: One was that we had talked about

85

00:08:32.520 --> 00:08:40.500

15127767111: That registry spotlight and so Dan actually did send me links and I had to laugh. Dan because about

86

00:08:44.340 --> 00:08:55.170

15127767111: Having us having done spotlights in the narrative before for the registries, because the last one that nature did Texas was one of them. And I

87

00:08:55.740 --> 00:09:13.740

15127767111: Totally saw that I wrote that article and had no memory of it whatsoever, although it was a little different spin because it was, what does an Acer gold certification mean to our registry. But anyways, it just made me laugh in terms of my

88

00:09:15.210 --> 00:09:25.860

15127767111: Eyes. If I make it to 80 it's going to be pretty dicey. I've already warmed my son in terms of my memory but but anyway, so thanks for sending those

89

00:09:27.000 --> 00:09:36.780

15127767111: Examples and so it did have a different spin. I still, I didn't have a chance to write the proposed kind of questions that we wanted to pose.

90

00:09:37.320 --> 00:09:50.610

15127767111: But I thought that, since we're close enough. Now we're going to have an in person meeting. Well, we have the nature narrative due date already coming up on us. So I can either try and squeeze it in for the next narrative or

91

00:09:51.090 --> 00:09:53.700

15127767111: I can ask for input in our in person board.

92

00:09:53.700 --> 00:09:54.240

15127767111: Meeting.

93

00:09:55.230 --> 00:09:57.750

15127767111: For suggestions that

94

00:09:57.810 --> 00:10:01.830

15127767111: That meeting. Is it the beginning of February or the end of January, I forget.

95

00:10:02.130 --> 00:10:03.540

Charlie Blackburn: It will be the beginning of February.

96

00:10:03.780 --> 00:10:04.410

15127767111: Am I am, yeah.

97

00:10:04.590 --> 00:10:05.070

Charlie Blackburn: Okay, yeah.

98

00:10:05.520 --> 00:10:06.570

Charlie Blackburn: So beginning of February.

99

00:10:07.230 --> 00:10:09.240

15127767111: Yeah, so we could do it in the spring. There it is.

100

00:10:10.290 --> 00:10:10.530

15127767111: So,

101

00:10:12.390 --> 00:10:16.620

15127767111: Any thoughts or opinions on that you get with whatever we decide

102

00:10:18.480 --> 00:10:19.590

15127767111: Sure. Okay.

103

00:10:19.620 --> 00:10:20.310

15127767111: Thanks, Katie.

104

00:10:23.010 --> 00:10:40.920

15127767111: And then also just wanted to mention that we were so proud of ourselves. We don't move on then to the narrative some more. We were so proud of ourselves because for the first time we got committee corners term everybody and then they were accidentally omitted from the narrative so

105

00:10:42.000 --> 00:10:50.400

15127767111: Susan Gershman even if she couldn't make it on this morning's call asked that I bring it up because she feels uncomfortable asking the steering committee chairs.

106

00:10:51.630 --> 00:11:00.390

15127767111: For more updates when we didn't actually publish the updates that were provided so I suggested to her that we go ahead and take another look at the at the steering committee.

107

00:11:01.380 --> 00:11:20.700

15127767111: Corners that were not published. You know, chances are they still are appropriate in terms of us, including them in the winter narrative and that we just make sure that they get published in the winter narrative. And then we just asked for a new committee corners from the

108

00:11:22.050 --> 00:11:27.420

15127767111: One or one one or two that got published. Does that sound reasonable to you guys.

109

00:11:29.820 --> 00:11:42.540

16146441844: Yeah, this is bland and i guess i mean i don't think there's anything wrong to say, gee, you know, sorry. It didn't work out but to see if there's anything new, they would want to add what they already gave us the that you know that they're really

110

00:11:43.740 --> 00:11:44.250

16146441844: Again,

111

00:11:44.340 --> 00:11:45.780

15127767111: The pure, it gets included

112

00:11:46.350 --> 00:11:47.820

16146441844: So what we could do actually is.

113

00:11:47.880 --> 00:11:50.070

15127767111: I like that. Lynn and I don't know why I think about it.

114

00:11:51.120 --> 00:12:05.160

15127767111: You're right, we should actually send it out to the steering committee chairs. This is what was submitted. Last time we apologize for not getting published and if you could just update it, or let us know that it's still current that's what we'll do.

115

00:12:07.110 --> 00:12:07.410

kziegler: Okay.

116

00:12:07.920 --> 00:12:08.730

15127767111: That sounds good.

117

00:12:10.740 --> 00:12:21.870

15127767111: Okay. And, and then we did get Chandrika sent out the next call for the winter narrative articles and, you know, we always offer a suggested do day

118

00:12:22.140 --> 00:12:35.640

15127767111: But of course, there's still some flexibility but that did happen. So that was good. That was one of our action items from the last meeting is we were hoping to get it out sooner and it just escaped my mind and she was out of the country. But we did get it out yesterday.

119

00:12:36.840 --> 00:12:38.280

15127767111: Okay, and then

120

00:12:38.730 --> 00:12:41.610

15127767111: Any other questions or comments about the narratives. The next narratives

121

00:12:44.700 --> 00:12:49.380

15127767111: Okay, and then the communication plan the steering committee report, I just wanted to mention

122

00:12:50.430 --> 00:13:07.800

15127767111: That we got a request from a sir. And we do this every year for the different board meetings in persons to provide an update on that steering committee report, and it's not due until last our next call but I went ahead and sent it out for you guys for you to see.

123

00:13:09.840 --> 00:13:18.030

15127767111: In terms of what that report looks like. And they specifically asked us to review the goals and objectives.

124

00:13:20.130 --> 00:13:20.730

kziegler: For

125

00:13:20.790 --> 00:13:33.150

15127767111: That meeting. And so since today is a short meeting, I have to run to another meeting. I just wanted to go ahead and give it to you guys now. And then if you are welcome to send me suggestions.

126

00:13:34.410 --> 00:13:44.370

15127767111: If it's convenient for you to look at it, you know, sooner than later. Just email them to me. And then we'll have this as an agenda item, and I'll have a draft completed at that point.

127

00:13:44.970 --> 00:13:56.940

15127767111: But feel free to send me any suggestions before then for our January meeting. And then, or what we can do is we can just talk through it in the January meeting it I'll make sure that we have an hour dedicated to it.

128

00:13:58.260 --> 00:14:00.540

15127767111: Did y'all have any questions about that report.

129

00:14:03.570 --> 00:14:05.010

15127767111: Okay. And then, um,

130

00:14:06.660 --> 00:14:20.430

15127767111: And then my next agenda item was the monthly promotional items. So thank you. Tyler, he did work with Nan Nan really wanted to do a video encouraging people to

131

00:14:21.000 --> 00:14:34.410

15127767111: Be nominated for the board and of course we did have some good discussion about that in the last steering committee meeting. So that was done in Tyler got that posted

132

00:14:35.730 --> 00:14:55.470

15127767111: And we also began preparing for World Cancer day and. But actually, before I check on that. I'm and of course Kendrick is not on the call. But there may be other members that are on the nominations. It seemed like we got sufficient nomination sense of the board in the next election.

133

00:14:58.290 --> 00:15:00.780

kziegler: Yes, I do know we did not

134

00:15:03.420 --> 00:15:08.100

kziegler: Know we have, we still have president elect to fill

135

00:15:08.610 --> 00:15:10.800

15127767111: Really oh we're having

136

00:15:10.860 --> 00:15:15.540

kziegler: A special meeting tomorrow to discuss next steps.

137

00:15:16.170 --> 00:15:18.870

15127767111: I thought we have somebody nominated

138

00:15:19.560 --> 00:15:20.700

15127767111: They did mine.

139

00:15:21.540 --> 00:15:23.850

kziegler: I tried for a few, but nothing. Yeah.

140

00:15:24.930 --> 00:15:29.520

kziegler: We've had three I think Rachel early three or four yeah they contacted three or

141

00:15:29.520 --> 00:15:41.040

Charlie Blackburn: Four and just wasn't the right time for a couple of them even they were close. There's one that that I don't think we have a know on yet and by all accounts, would be a very suitable

142

00:15:42.570 --> 00:15:44.190

Charlie Blackburn: Capable President leader.

143

00:15:44.670 --> 00:15:46.890

Charlie Blackburn: But they're, they're going to meet on that tomorrow.

144

00:15:47.640 --> 00:15:49.650

15127767111: Kyle I think there'll be a part of that Chandrika

145

00:15:49.680 --> 00:15:52.140

Charlie Blackburn: Betsy Nan and Randy. And I think in the end.

146

00:15:52.380 --> 00:15:55.350

Charlie Blackburn: Like, like, like some years. I mean, usually we have it.

147

00:15:55.380 --> 00:15:56.340

Charlie Blackburn: Secured sooner.

148

00:15:57.360 --> 00:16:00.930

Charlie Blackburn: But I think it's just going to take a little, little nudge.

149

00:16:02.280 --> 00:16:03.420

Charlie Blackburn: On a couple fronts.

150

00:16:03.420 --> 00:16:12.900

Charlie Blackburn: Just to kind of see and hopefully, hopefully, by the time a lot of people I think are breaking next Friday from work for a while.

151

00:16:13.320 --> 00:16:13.740

16146441844: Hopefully,

152

00:16:14.130 --> 00:16:15.240

Charlie Blackburn: Of some sort. I do where we

153

00:16:15.240 --> 00:16:17.010

Charlie Blackburn: Stand with that so

154

00:16:17.490 --> 00:16:20.490

15127767111: We're okay. We're sorry to hear that. Okay.

155

00:16:21.720 --> 00:16:22.230

15127767111: Well, good luck.

156

00:16:24.300 --> 00:16:40.890

16146441844: With your staff. Good question. I mean, how many, how many nominees. I mean, when this information gets sent out. Does it do people know that there's already like 20 people nominated for something that they wouldn't bother to throw their hat in the ring or

157

00:16:43.230 --> 00:16:44.790

kziegler: No, no.

158

00:16:45.900 --> 00:17:05.250

15127767111: I always IF I GET NOMINATED. I asked you know sometimes like there has been, I mean I've served on the board. And it was fine. I've been asked at other times, and you know where I've been, like, I would do it if they needed absolutely needed somebody, but then they had sufficient, you know,

159

00:17:05.310 --> 00:17:07.740

15127767111: Representatives at large, for example. So I said,

160

00:17:07.740 --> 00:17:10.500

15127767111: That thank you for the nomination, but it's okay.

161

00:17:13.020 --> 00:17:20.040

15127767111: I mean, I think that but but when I when I've been nominated or someone approaches me and they don't typically say that and

162

00:17:21.120 --> 00:17:22.500

16146441844: But I think that people who get

163

00:17:22.500 --> 00:17:23.250

Nominated

164

00:17:24.690 --> 00:17:26.700

15127767111: Will ask if they're on the fence.

165

00:17:27.870 --> 00:17:28.170

15127767111: Okay.

166

00:17:29.250 --> 00:17:30.180

15127767111: You know,

167

00:17:30.210 --> 00:17:35.970

kziegler: You know with this nomination. This time around, we've got quite a few running for the members at large.

168

00:17:36.300 --> 00:17:38.370

15127767111: And and

169

00:17:39.660 --> 00:17:40.080

kziegler: The

170

00:17:41.670 --> 00:17:50.400

kziegler: lorries position is, you know, there's somebody there. So yeah, it's just the president elect is what we're waiting for what we're, you know,

171

00:17:52.290 --> 00:17:53.250

kziegler: Workout but

172

00:17:53.640 --> 00:17:54.840

Charlie Blackburn: Just can take a little more work.

173

00:17:56.310 --> 00:17:58.230

15127767111: And more influence

174

00:17:58.560 --> 00:17:59.280

15127767111: Those kinds of things.

175

00:18:01.140 --> 00:18:02.610

15127767111: Yeah, okay.

176

00:18:03.630 --> 00:18:04.320

15127767111: Um,

177

00:18:06.840 --> 00:18:11.940

15127767111: Yeah, I'm sure at this point it's beyond the communication steering committee is going to take a personal touch.

178

00:18:14.250 --> 00:18:15.000

kziegler: from you guys.

179

00:18:17.370 --> 00:18:25.080

15127767111: All right, and then Katie went ahead and apologize sent a revised version so that you could print it. If you chose to but

180

00:18:25.740 --> 00:18:38.040

15127767111: So we did come up with a draft of World Cancer day and we had also mentioned in the last meeting. This is an action item. So Katie put that together. Thank you. Katie was based on the previous years.

181

00:18:38.790 --> 00:18:54.960

15127767111: But we did back it up to, we're in response to membership requests that we actually give them awareness in case they want to promote World Cancer day as well, about a month in advance. So in that timeline, you can see

182

00:18:56.340 --> 00:18:59.190

15127767111: Where we send out our first notification.

183

00:18:59.940 --> 00:19:11.430

15127767111: The beginning of January. Yeah, yeah, the first Monday in January, so that way again. If folks want to actually promote it themselves. They'll have

184

00:19:13.170 --> 00:19:20.400

15127767111: Reminder and can go and see the resources that are provided by because there's very nice toolkits and whatnot.

185

00:19:21.690 --> 00:19:38.850

15127767111: For promoting the World Cancer day. So again, if you have any comments or feedback on that, feel free to send them to us in or you know if you have any now, but I really have time to respond, but you've got it to look at

186

00:19:42.000 --> 00:19:46.290

15127767111: Okay. And then are there any questions or comments about that for World Cancer day

187

00:19:48.840 --> 00:19:51.750

Charlie Blackburn: Now, Tyler keeps up on that i i think

188

00:19:51.780 --> 00:19:53.790

15127767111: Either part of the email or forward them those kinds of

189

00:19:53.790 --> 00:19:54.210

Things.

190

00:19:55.230 --> 00:19:57.750

Charlie Blackburn: It's sometimes they get a little overboard.

191

00:19:57.750 --> 00:20:04.980

Charlie Blackburn: With it, but we try and filter it as best we can and take care of the most important pieces. They're going to move the needle.

192

00:20:05.070 --> 00:20:06.030

Charlie Blackburn: The most so

193

00:20:06.600 --> 00:20:08.490

Charlie Blackburn: As information pops up hill hoping you

194

00:20:08.490 --> 00:20:17.220

15127767111: Guys if something new comes up. Okay, great. Yeah. And we kept with the same plan. Other than that earlier email.

195

00:20:19.020 --> 00:20:28.200

15127767111: So that Members have awareness in time to promote it if they choose to. So that was really the only change in terms of activity that we had from the previous nice or plans.

196

00:20:29.970 --> 00:20:31.200

15127767111: Okay, great. And

197

00:20:32.520 --> 00:20:41.100

15127767111: And then I had a couple of other items. So you mentioned Kyle, the recent CNET edition. So what was it that

198

00:20:42.120 --> 00:20:47.010

15127767111: That was requested or. What did you have in mind for that agenda item that I added

199

00:20:48.000 --> 00:20:49.050

So,

200

00:20:50.100 --> 00:20:58.980

kziegler: If the last board meeting, if we reviewed the latest edition of the Siena monograph. Yeah. And we were

201

00:20:58.980 --> 00:21:02.640

kziegler: Asked to publish it when it becomes available.

202

00:21:03.870 --> 00:21:15.450

kziegler: So that is right now out to the I received the email from her sending her and I've been emailing back and forth this morning. It is out for the registries review right now.

203

00:21:16.860 --> 00:21:24.180

kziegler: And so she would like to release it after they reviewed it, but that won't be until after December the 20th

204

00:21:26.220 --> 00:21:27.120

kziegler: So,

205

00:21:29.220 --> 00:21:37.200

kziegler: I'm you know that puts us in a very interesting place. You don't want to put something out and get it lost in because everybody's out in the holidays.

206

00:21:37.590 --> 00:21:38.460

15127767111: Right, you know,

207

00:21:38.880 --> 00:21:45.900

kziegler: Leave you come back, and all of a sudden you got 30 emails file or 100 and you get through it and you miss that.

208

00:21:47.280 --> 00:21:56.010

kziegler: If this is depending on how close this gets to Christmas I might now looking at this thinking maybe real first thing

209

00:21:59.580 --> 00:22:01.710

kziegler: Right after the new year. What do you think

210

00:22:02.310 --> 00:22:06.540

15127767111: Yeah, I agree. That was our thinking as well in terms of the due date of the narrative even

211

00:22:07.980 --> 00:22:17.970

15127767111: Yeah, I mean there's just got it. Well, at least I don't know that I feel that, and then day when I come back in January, because it's really pretty quiet but

212

00:22:18.840 --> 00:22:28.920

15127767111: I know that that much stuff gets held but and then blast it out. But I absolutely agree they shouldn't release. And plus, it's a new seen its prevalence and so because I got the email.

213

00:22:29.580 --> 00:22:30.660

15127767111: To review that

214

00:22:32.070 --> 00:22:39.150

15127767111: And they have prevalence in there. And that's a whole new thing and a big deal. So I would definitely recommend that that be in early January.

215

00:22:40.170 --> 00:22:40.830

15127767111: And then

216

00:22:41.250 --> 00:22:51.720

kziegler: I'm not sure what kind of and there's going to be. I asked her about maybe, you know, writing up a, you know, or somebody giving us a some sort of a press release so

217

00:22:52.530 --> 00:23:07.740

kziegler: To help us along with the publishing of this. So I don't know exactly where you think that this would go, besides the website. And if there's anywhere else that you think that or anything else we can do to get this out.

218

00:23:08.340 --> 00:23:21.630

15127767111: You know, I definitely think that we should do. I mean, the nature listserv is very useful. And again, but going back to our survey that was members preferred method of communicating, we can still put, we can still tweet it out.

219

00:23:23.730 --> 00:23:24.510

15127767111: And then

220

00:23:26.040 --> 00:23:27.750

15127767111: You know, maybe in the listserv.

221

00:23:27.840 --> 00:23:32.220

15127767111: Put a link to the press release, if that's what we want to do.

222

00:23:33.570 --> 00:23:40.380

15127767111: And then, you know, please. Since there is that new prevalence aspect. Maybe we could get a brief narrative article on it.

223

00:23:41.940 --> 00:23:43.590

kziegler: Just crossed my mind when you were talking

224

00:23:44.640 --> 00:23:45.390

kziegler: That would be

225

00:23:47.010 --> 00:23:50.310

kziegler: Okay, so this is live. Is there a

226

00:23:50.340 --> 00:23:56.490

16146441844: Possibility that again since there's prevalent data could even be like a little half an hour webinar.

227

00:23:58.440 --> 00:24:06.270

16146441844: I think for some of us, that's the whole lot better. And we can also make sure it gets pushed out to our analytic team.

228

00:24:07.170 --> 00:24:08.460

Charlie Blackburn: Yeah, Linda says, Charlie.

229

00:24:09.330 --> 00:24:11.430

Charlie Blackburn: I have, I think that they do have one

230

00:24:11.430 --> 00:24:15.840

Charlie Blackburn: Planned I'll double check with for Cindy Sherman from our office and

231

00:24:16.530 --> 00:24:17.970

Charlie Blackburn: Make sure that that's the case. But

232

00:24:17.970 --> 00:24:19.470

Charlie Blackburn: I do believe that they had

233

00:24:19.470 --> 00:24:21.540

Charlie Blackburn: Something planned and in fact

234

00:24:21.780 --> 00:24:23.070

Charlie Blackburn: Just as a little side note,

235

00:24:24.390 --> 00:24:32.220

Charlie Blackburn: That's not a best practices piece. I know, per se, but there are some things coming down the line that are going to be best practice oriented and

236

00:24:32.850 --> 00:24:35.700

Charlie Blackburn: There's going to be a deeper dive on those things as they get released

237

00:24:35.730 --> 00:24:40.200

Charlie Blackburn: With a you know a brief webinar and and you know won't be hours long.

238

00:24:40.530 --> 00:24:43.620

Charlie Blackburn: But a brief webinar and Q AMP. A and

239

00:24:43.620 --> 00:24:44.130

16146441844: Dialogue.

240

00:24:44.250 --> 00:24:45.510

Charlie Blackburn: So to open that up so

241

00:24:45.750 --> 00:24:48.450

Charlie Blackburn: I know I went a little further with that. But I'll double check with for sender.

242

00:24:49.080 --> 00:24:51.720

Charlie Blackburn: And email you when we're done here.

243

00:24:52.380 --> 00:25:07.680

16146441844: Yeah and there's anything it's primarily because it's got something different going on for that, you know, it might be helpful to say, How did you do it or how did they do it and you know if you know states might want to follow suit or whatever. So thank you.

244

00:25:08.430 --> 00:25:11.760

16146441844: Because Angela. I'm on RT you and I'm pretty sure we're doing

245

00:25:11.820 --> 00:25:12.960

Angela Meisner: That's one. That's our plan.

246

00:25:13.800 --> 00:25:26.220

15127767111: Obviously work. Yeah, it'd be good because you know there's different ways that you can calculate it and do it and you know if there's a webinar. I don't know. It just helps me be conscious and take the time. I think that'd be super

247

00:25:27.510 --> 00:25:33.690

15127767111: Okay. Good. So then, I have then that we can, we may be expecting a

248

00:25:34.860 --> 00:25:48.060

15127767111: Press Release. We can do the listserv. We can do tweet, we suggest an Acer narrative article and then Charlie will double check. Although Angeles pretty sure that will have a small webinar. So I think that sounds good. Kyle, don't you.

249

00:25:49.020 --> 00:25:52.020

kziegler: Yeah, I think that's great. So, yeah.

250

00:25:53.490 --> 00:25:58.560

kziegler: Yeah, you know, and we'll just like desk play it by ear. When we see when I suspect

251

00:25:59.820 --> 00:26:00.510

kziegler: That the team.

252

00:26:01.110 --> 00:26:02.070

Charlie Blackburn: And I already checked with

253

00:26:02.130 --> 00:26:04.500

Charlie Blackburn: With for Santa. She told me that

254

00:26:04.920 --> 00:26:05.460

Charlie Blackburn: That they do.

255

00:26:05.670 --> 00:26:11.760

Charlie Blackburn: They have a plan for for registries they plan on doing a webinar for registries to do calculations.

256

00:26:13.290 --> 00:26:21.450

Charlie Blackburn: And so I mentioned that this brought up. So she's going to put some consideration for whoever will do that to see if there's some expansion on that that will happen. So there was something

257

00:26:21.540 --> 00:26:21.900

15127767111: Plan.

258

00:26:22.110 --> 00:26:22.680

Charlie Blackburn: But that's

259

00:26:23.100 --> 00:26:26.820

Charlie Blackburn: That's what's happened. So there's a report so she was able to let me know right away.

260

00:26:27.810 --> 00:26:29.040

15127767111: Right, okay.

261

00:26:31.890 --> 00:26:33.480

kziegler: I'm sorry, I'm taking notes here for

262

00:26:33.480 --> 00:26:35.220

15127767111: Myself will consider

263

00:26:37.200 --> 00:26:37.530

15127767111: Adding

264

00:26:43.470 --> 00:26:48.270

15127767111: Okay, great. And then also, Tyler had mentioned

265

00:26:50.220 --> 00:26:58.350

15127767111: Or suggested us, adding that we have an in person meeting at the 2020 annual conference upcoming

266

00:26:59.550 --> 00:27:17.790

15127767111: And so, um, it will also be the end of my two year term. And it's a great committee, I've got quite a number of things though in our not so distant future here. So my plan is to step down as the chair.

267

00:27:18.930 --> 00:27:22.320

15127767111: But maybe I mean that's all we can do a nice transition

268

00:27:24.360 --> 00:27:31.530

15127767111: With the new whoever the new steering committee chair would be. And so all plan and we can talk about and work on an agenda.

269

00:27:31.890 --> 00:27:44.820

15127767111: If that sounds reasonable to you all. I know it's kind of mixed on our on who all gets to attend. It was leaner last year because I know a number of our members were unable to get approval to go to Canada.

270

00:27:45.900 --> 00:27:55.500

15127767111: But I'm thinking that we all probably should be able to attend Philadelphia. Does anybody have a know that they will not able to attend.

271

00:27:56.790 --> 00:28:00.090

15127767111: next June nature's plan to attend.

272

00:28:01.830 --> 00:28:02.310

You don't

273

00:28:03.450 --> 00:28:03.750

15127767111: Okay.

274

00:28:05.070 --> 00:28:08.010

15127767111: We can still offer a call in option.

275

00:28:10.170 --> 00:28:13.200

15127767111: Maybe try. Okay.

276

00:28:14.220 --> 00:28:20.460

16146441844: So Melanie. If you step down will one of the incoming board members take on your role.

277

00:28:21.660 --> 00:28:23.850

16146441844: Now normally transition

278

00:28:24.390 --> 00:28:31.920

16146441844: Because I guess I'm just thinking, if it's if there is a transition. And there's a new board member have is that all

279

00:28:32.610 --> 00:28:38.820

15127767111: It's not the steering committee is to chair is typically not, it's not a board member, you know, we have two

280

00:28:40.440 --> 00:28:42.840

kziegler: Members from the board, but

281

00:28:43.380 --> 00:28:51.390

15127767111: It has. It's not the steering committee chairs are typically not the board members. So I just got asked

282

00:28:52.740 --> 00:29:02.640

15127767111: By you know it is, I think, more helpful if it is an existing steering committee member, although it's certainly not necessary.

283

00:29:03.690 --> 00:29:07.950

15127767111: And again, I would, I would not. I would be try and be helpful.

284

00:29:09.120 --> 00:29:18.450

15127767111: And, you know, make sure they have everything. I mean, everybody was very helpful to me but it came from a half a dozen different directions didn't come from the previous chair.

285

00:29:20.280 --> 00:29:27.720

15127767111: So it was a little bit more difficult for me I think having not served on this committee prior but

286

00:29:28.710 --> 00:29:34.920

15127767111: You know, at least I have that experience. So I would make it as painless as possible and encourage folks to

287

00:29:35.610 --> 00:29:43.020

15127767111: You know, consider being being the chair. It's, it's, it's a good. It's a good. I think it's a good committee and in a great committee and a great

288

00:29:43.380 --> 00:29:53.880

15127767111: Opportunity. I just, we've got some stuff going on here. Charlie's used to get nature's used to me, I'll be on for a couple years. And then I step back for a couple years. And then I come back.

289

00:30:01.080 --> 00:30:14.700

15127767111: Okay, well, I will, I will work on that. We've got time at Tyler, did you have anything. I mean, you made the suggestion, it's great that you have anything already specifically in mind or you just started the and I say d at this point that we get together.

290

00:30:15.180 --> 00:30:17.280

Tyler Scott: No, a Charlie and I were just talking this

291

00:30:17.280 --> 00:30:21.900

Tyler Scott: Morning and we're kind of wondering when would be the best day for you guys to me.

292

00:30:23.640 --> 00:30:30.690

15127767111: OK, I will plan to put that I'll continue to have that as a item and

293

00:30:32.610 --> 00:30:41.250

15127767111: You know, probably have a better sense of it like around February. How soon do you guys need to know because I know you're actively working on that agenda.

294

00:30:42.060 --> 00:30:45.030

Charlie Blackburn: Yeah, yeah. This is Charlie, January, February is fine.

295

00:30:45.450 --> 00:30:47.100

Charlie Blackburn: January, February is OK.

296

00:30:48.240 --> 00:30:48.660

15127767111: That just

297

00:30:48.780 --> 00:30:50.400

Charlie Blackburn: Kind of gets it on the schedule.

298

00:30:51.540 --> 00:30:55.140

Charlie Blackburn: early bird gets the worm with that, then you don't have to worry about moving around a bunch of other committees.

299

00:30:56.520 --> 00:30:56.850

15127767111: Either

300

00:30:57.480 --> 00:31:03.540

Charlie Blackburn: So whatever you know whatever you choose, preferably by February, it can and not

301

00:31:04.230 --> 00:31:05.010

Charlie Blackburn: Move a little bit

302

00:31:05.070 --> 00:31:05.370

Charlie Blackburn: You know,

303

00:31:05.400 --> 00:31:11.700

Charlie Blackburn: Our wise but if we get into a period of time, then that makes it a little bit easier. We're just trying to put it on your radar.

304

00:31:11.760 --> 00:31:22.890

15127767111: As much as anything else. Absolutely. And right now, it seemed to me like the standing committees are typically meeting, aren't they, on that Monday before the meeting actually starts

305

00:31:23.100 --> 00:31:25.470

15127767111: Yes. Is that OK. OK.

306

00:31:29.040 --> 00:31:34.530

15127767111: So I know this from experience. It's like there's a sweet spot of trying to like

307

00:31:35.880 --> 00:31:43.440

15127767111: Make it late enough to where maybe people can still arrive on Monday and attend your committee, but then not being making it so late to

308

00:31:43.680 --> 00:31:50.160

15127767111: Yeah, they're tired out already, or elsewhere, enjoying the sights of Philadelphia.

309

00:31:51.180 --> 00:31:58.980

15127767111: OK, I will. I'll take a look at that and I'll definitely work on. We're going to be thinking about an agenda and be thinking about

310

00:32:00.870 --> 00:32:05.400

15127767111: When that is so you guys can get it down. I don't see any reason why I can't figure it out.

311

00:32:06.450 --> 00:32:13.350

Charlie Blackburn: Hey, Melanie, just real quick just kind of working with Tyler, as he does some of these things for the first time.

312

00:32:14.400 --> 00:32:25.530

Charlie Blackburn: Regarding your plans moving forward. Do you want Tyler, just to ping Randy, just to know that. Is that something you want to mention to her first about your friends, maybe already have just so because

313

00:32:25.650 --> 00:32:26.880

Ultimately, the President

314

00:32:28.260 --> 00:32:32.070

Charlie Blackburn: You know, was the one that's going to be responsible for, you know, filling those roles.

315

00:32:32.670 --> 00:32:45.990

15127767111: Yes, this is the first time I entered it out loud to the group, but I had been I know y'all have prompted all of us think we were asked to let the President know for the in person meeting, but I'm happy to shoot Randy and Betsy, an email.

316

00:32:46.470 --> 00:32:51.780

Charlie Blackburn: Okay, and then I'll work with Tyler, just to make sure that he just sort of stays in front of them. After you do that,

317

00:32:52.590 --> 00:32:53.520

15127767111: Just to, you know,

318

00:32:53.550 --> 00:32:54.330

Charlie Blackburn: People get busy.

319

00:32:54.390 --> 00:32:55.740

Charlie Blackburn: And so sometimes staff help

320

00:32:56.070 --> 00:32:57.210

Charlie Blackburn: Spur that so

321

00:32:59.040 --> 00:33:00.300

Charlie Blackburn: Yeah, I'll talk to you offline tower.

322

00:33:00.810 --> 00:33:01.260

Okay.

323

00:33:02.880 --> 00:33:03.780

15127767111: This is Lynn, can I

324

00:33:03.990 --> 00:33:22.290

16146441844: ask another question, since there's so many good people on the phone. Today we are trying to develop something in Ohio where every month, we have a fact sheet that we put out for whatever cancer awareness month. It is. And I wondered if anybody on the call did that and if so,

325

00:33:23.850 --> 00:33:31.050

16146441844: If you wouldn't mind sharing your template or if there is an organization that already does these that you use for this purpose.

326

00:33:31.980 --> 00:33:43.110

16146441844: We don't want to bother to reinvent the wheel. If there's something really great out there. But just like the stuff you just sent out on World Cancer day it's just really nice to have something to kind of get you started, and

327

00:33:44.160 --> 00:33:58.110

16146441844: We thought, rather than being reactive. When we get questions on from the public or public affairs group, as you know, what are the numbers. And what's it look like if we had something that we would do ahead of time and then just push out on our website that would

328

00:33:59.850 --> 00:34:02.250

kziegler: Be be helpful. So I was just wondering if

329

00:34:02.250 --> 00:34:11.490

16146441844: Any, any of you out there, do something like that routinely or again if you are using information that another organization is has already developed

330

00:34:19.170 --> 00:34:19.890

16146441844: Or

331

00:34:21.240 --> 00:34:23.070

15127767111: Word kitty there any other

332

00:34:24.510 --> 00:34:24.870

15127767111: Okay.

333

00:34:24.960 --> 00:34:35.310

16146441844: Alrighty. Well, then we'll just we might come up with something. But I guess the only thing is, is, um, you know, we get the questions and then you're running around on a Friday afternoon but to

334

00:34:36.090 --> 00:34:43.650

16146441844: You know, we're, we're just trying to get ahead of the curve, so. Okay. Thanks. Okay. Yeah, we don't do anything on a

335

00:34:43.650 --> 00:34:44.490

Monthly

336

00:34:46.290 --> 00:34:56.970

15127767111: We're still a couple of X. She's but nothing on an ongoing basis. Now we're patting ourselves on the back line. If we can get it out annual. Yeah. Well, that's what we've been doing, but

337

00:34:57.000 --> 00:34:59.070

16146441844: We're trying to do something new. Sure.

338

00:34:59.460 --> 00:35:00.570

15127767111: Sure, absolutely.

339

00:35:02.190 --> 00:35:04.590

16146441844: So if we do, we can put it into nice or narrative.

340

00:35:05.100 --> 00:35:05.790

15127767111: You should

341

00:35:07.470 --> 00:35:09.330

15127767111: Well, we're just at the beginning stages.

342

00:35:09.420 --> 00:35:15.480

16146441844: But, um, we had some kind of hit us again just a couple weeks ago and we said, we just, we can't work like this. So,

343

00:35:17.370 --> 00:35:19.170

15127767111: Oh yeah, how often I have this

344

00:35:21.600 --> 00:35:29.760

15127767111: One man. Man, I know you'll manage and do well we I feel like I'm on my way through so many things here. But if it works out. It's all right.

345

00:35:31.680 --> 00:35:33.120

15127767111: Okay well i i

346

00:35:33.210 --> 00:35:37.920

15127767111: Apologize for having to cut the meeting short, I've got to run to my next meeting.

347

00:35:39.030 --> 00:35:48.240

15127767111: But again, if you do have a chance to look at our goals and objectives. Any other feedback on our world cancer day or

348

00:35:49.620 --> 00:35:52.560

15127767111: You know, thinking about the agenda.

349

00:35:53.640 --> 00:35:59.670

15127767111: For in person meeting. Any other thoughts from seen it. Don't hesitate and letting letting us know

350

00:36:00.960 --> 00:36:02.340

kziegler: So thanks. I hope you guys have

351

00:36:02.430 --> 00:36:03.270

15127767111: Happy holidays.

352

00:36:03.840 --> 00:36:05.040

16146441844: Thank you, you too. Thanks.
