1

00:02:23.880 --> 00:02:25.650

19167088860: Hi. This is Kyle. I'm

2

00:02:27.330 --> 00:02:28.440

19167088860: I'm just here.

3

00:02:29.550 --> 00:02:29.730

19167088860: Hey,

4

00:02:32.250 --> 00:02:32.700

19167088860: Hey,

5

00:02:34.980 --> 00:02:36.330

19167088860: anything exciting going on.

6

00:02:37.500 --> 00:02:38.700

19167088860: No, no, not really.

7

00:02:39.210 --> 00:02:39.780

About you.

8

00:02:41.580 --> 00:02:42.270

19167088860: Know, just

9

00:02:43.440 --> 00:02:44.610

keep a low profile.

10

00:02:46.200 --> 00:02:55.530

19167088860: For any keep this year, yesterday I said in a in a meeting a teleconference like the fourth one of the day I said you know what this year is just been a long year already

11

00:02:57.150 --> 00:02:57.870

19167088860: I'm done with it.

12

00:03:01.470 --> 00:03:01.890

19167088860: Anyway,

13

00:03:03.000 --> 00:03:03.780

19167088860: Well, I'm, uh,

14

00:03:05.280 --> 00:03:05.520

19167088860: I'm

15

00:03:05.820 --> 00:03:11.250

19167088860: In the process of trying to get out of the house. So I told Melanie is a copy on it, but I'll be on the

16

00:03:12.450 --> 00:03:12.810

19167088860: Car

17

00:03:15.090 --> 00:03:16.500

19167088860: Just don't want to bother everybody

18

00:03:18.270 --> 00:03:18.720

19167088860: So,

19

00:03:20.910 --> 00:03:30.060

19167088860: Do you know if I know that this is the communications meeting, but it's this has been beginning to keep me up at night. Do you happen to know anything about nominations. Did we find somebody

20

00:03:30.150 --> 00:03:33.690

Tyler Scott: For run for president for the president elect

21

00:03:34.170 --> 00:03:41.670

Tyler Scott: As far as I know Charlie was going to meet with Betsy today, I believe that was talked about in our morning meeting and they're going to come up with

22

00:03:42.240 --> 00:03:44.790

Tyler Scott: As far as I know, I don't think we have a nomination yet.

23

00:03:44.940 --> 00:03:45.420

For it.

24

00:03:48.120 --> 00:03:51.000

19167088860: Well, that's what I was afraid of. Okay.

25

00:03:56.940 --> 00:04:00.000

19167088860: No, no, no, it doesn't happen that way.

26

00:04:01.200 --> 00:04:02.640

19167088860: I just did it. You just heard me.

27

00:04:05.520 --> 00:04:06.450

19167088860: I deny that.

28

00:04:27.810 --> 00:04:28.830

Hi it's Melanie

29

00:04:32.220 --> 00:04:32.850

No, honey.

30

00:04:34.260 --> 00:04:34.920

19167088860: How are you

31

00:04:37.320 --> 00:04:37.890

Pretty good.

32

00:04:51.990 --> 00:04:53.430

15127767111: Do we have anyone else on the call.

33

00:04:58.710 --> 00:04:59.160

15127767111: Angela.

34

00:04:59.910 --> 00:05:00.360

Morning.

35

00:05:09.390 --> 00:05:11.970

15127767111: Okay, so I'm going to go on.

36

00:05:12.000 --> 00:05:17.880

19167088860: Mute here. Yeah, I hope when I get in my car, I hope I don't get disconnected. So

37

00:05:17.940 --> 00:05:18.540

15127767111: Our case.

38

00:05:20.070 --> 00:05:20.850

15127767111: And how that goes.

39

00:05:22.860 --> 00:05:24.960

15127767111: Okay, Tyler Angela and Kyle.

40

00:05:27.420 --> 00:05:27.840

15127767111: Me.

41

00:05:29.610 --> 00:05:30.240

19167088860: Oh, Dan.

42

00:05:30.390 --> 00:05:30.750

15127767111: Thank you.

43

00:05:31.560 --> 00:05:32.700

Angela Meisner: So it's like lens on the phone.

44

00:05:33.570 --> 00:05:34.440

Oh, great. Thank you.

45

00:05:37.410 --> 00:05:40.200

15127767111: shut my door. Sure. That case on our way.

46

00:05:43.440 --> 00:05:50.490

15127767111: Already Alrighty. Um, well, let's see. And as Susan said she had a conflict.

47

00:05:53.400 --> 00:05:56.490

15127767111: Only one other person on his expression of not expecting

48

00:05:58.140 --> 00:06:03.510

15127767111: Okay. Well, I didn't have the minutes. Done. So that's my set item quick let's go ahead and get started.

49

00:06:04.680 --> 00:06:06.600

15127767111: I'll go right to the narrative.

50

00:06:08.190 --> 00:06:09.900

15127767111: So for the narrative.

51

00:06:10.980 --> 00:06:18.090

15127767111: Susan had and she did give me an update. Susan has gone ahead and sent out the steering committee. Cheers.

52

00:06:19.980 --> 00:06:21.540

15127767111: Have provided last time.

53

00:06:22.830 --> 00:06:25.560

15127767111: Since it didn't get included and

54

00:06:26.730 --> 00:06:34.020

15127767111: And the last nature narratives, like we had planned and so she had a deadline of the 10th.

55

00:06:34.530 --> 00:06:49.350

15127767111: And so far, she hasn't heard any updates. So if she hasn't heard any updates. By then she'll just will go with what we had had originally submitted and make sure that they make it into the narrative, this time.

56

00:06:50.370 --> 00:06:54.810

15127767111: Also, we didn't get the call out for winter narrative articles.

57

00:06:55.980 --> 00:06:59.910

15127767111: And we've had one submission. I know from CB trust.

58

00:07:01.500 --> 00:07:05.070

15127767111: And I will check in with Katie's here now.

59

00:07:06.270 --> 00:07:13.710

15127767111: With Chandrika and Monica, just to see how it's going. And see, make sure that we're on track.

60

00:07:14.880 --> 00:07:22.500

15127767111: In terms of getting a spring version out and then did you guys have any comments or questions for the narrative.

61

00:07:26.490 --> 00:07:29.400

16146441844: Melanie, this is Lynn and I

62

00:07:30.510 --> 00:07:36.630

16146441844: You sending me the the survey results is somehow or another I overlooked before but

63

00:07:38.010 --> 00:07:39.030

15127767111: I guess I was just

64

00:07:39.540 --> 00:07:47.640

16146441844: I guess what I went back and looked at that and saw what the percentage of people were that said they got their news from the narrative. I wondered if

65

00:07:48.930 --> 00:07:56.700

16146441844: We thought about doing a little survey to understand how it could be more useful to them. Or did I miss the boat on that one, too.

66

00:07:57.180 --> 00:08:04.920

15127767111: No, no, actually. And thank you, I saw your as your email, right before we started. I'm sorry. I didn't bring it up by it intended to um

67

00:08:06.510 --> 00:08:17.910

15127767111: Yeah, I mean, I think that's reasonable. The results show. What about a quarter of the respondents was sad it seminary, I think it was 21% 21%

68

00:08:21.030 --> 00:08:28.980

15127767111: Yeah, I think that's fine. I mean, I think, in, in looking at the results, which I would need to pull up again from memory.

69

00:08:30.090 --> 00:08:31.260

16146441844: I was thinking

70

00:08:31.290 --> 00:08:33.390

15127767111: That they liked

71

00:08:33.480 --> 00:08:35.790

15127767111: The email notifications, the

72

00:08:35.790 --> 00:08:36.390

Lizard

73

00:08:38.700 --> 00:08:54.630

15127767111: Although I thought the narrative was like in the end they liked the website. I thought the narrative was next. And then of course the social media stuff was the least. Yeah. Um, but yeah, I mean, I don't think there's anything wrong. It seems like there hasn't been

74

00:08:56.220 --> 00:09:01.620

15127767111: I mean, for those. For those of you that have more institutional memory on this committee than I do.

75

00:09:04.470 --> 00:09:15.390

15127767111: I don't know, sir. I don't remember, but the have terrible memory is Dan can attest to and he reminded me like I did. I had written one of the last state highlight articles.

76

00:09:17.790 --> 00:09:20.130

15127767111: I don't think you've asked for input on the narrative.

77

00:09:21.960 --> 00:09:24.300

15127767111: Anytime recently. So

78

00:09:29.520 --> 00:09:30.960

15127767111: I read it, I enjoy it.

79

00:09:33.720 --> 00:09:34.410

Hi, good morning.

80

00:09:36.420 --> 00:09:36.930

15127767111: America.

81

00:09:38.640 --> 00:09:39.870

16146441844: We were just talking about.

82

00:09:40.470 --> 00:09:48.540

15127767111: Lynn had looked at the such as our communication survey last or yesterday and she had noticed that

83

00:09:49.740 --> 00:10:05.550

15127767111: You know the feedback on the narrative that it wasn't as high as we don't know what to expect, or would like and she was wondering about potential surveyed and membership to learn. You know what it is that they were wanting to see in the narrative.

84

00:10:08.610 --> 00:10:09.060

19197333526: You know,

85

00:10:12.360 --> 00:10:20.520

16146441844: I guess where I'm coming from. And just being on these calls and I apologize if you hear a noise around me. We're in the midst of renovations here but

86

00:10:21.870 --> 00:10:30.750

16146441844: You know it. I just know so much effort put into trying to get the information together. And it's all very nice that I guess I just wonder

87

00:10:31.830 --> 00:10:36.660

16146441844: You know, is it worthwhile to find out. Are there certain things that people don't use the newsletter for that.

88

00:10:38.490 --> 00:10:41.400

16146441844: Again, just you know what kind of feedback. Could we get that

89

00:10:42.510 --> 00:10:55.140

16146441844: As we move forward, probably, especially over next year. Some things would like to see tweets or is it just that, because the way the question was asked, you know, most people use the listserv. And this is just farther down

90

00:10:56.940 --> 00:11:03.330

16146441844: As opposed to, not that. It's not what everybody wants. It's just that it's not the number one, but

91

00:11:05.430 --> 00:11:05.730

16146441844: Yeah.

92

00:11:07.980 --> 00:11:14.370

16146441844: So, okay, well I guess we can think about that now. I think it's a good idea. I do, and especially since we've talked about different ideas.

93

00:11:16.830 --> 00:11:31.740

15127767111: I think, I think we can come up with something though if you're interested I we just did a survey on our, our page newsletter that we send out and I could just share that it was a little, you know,

94

00:11:34.620 --> 00:11:40.920

16146441844: Survey Monkey survey, but it didn't give us. It wasn't too too long and it gave us some good feedback and

95

00:11:41.850 --> 00:11:55.800

16146441844: You know, we can't do everything that everybody wants, but it is a list of things for us to at least ponder and think if we want to do differently so I could just for that because if if we do want to do something, some of the questions could probably be

96

00:11:58.290 --> 00:11:59.910

16146441844: Free for us. So

97

00:12:00.360 --> 00:12:01.350

15127767111: I think that would be great.

98

00:12:03.000 --> 00:12:03.300

16146441844: Okay.

99

00:12:04.440 --> 00:12:06.330

16146441844: Yeah, especially if it's a really short one.

100

00:12:07.020 --> 00:12:07.350

Yeah.

101

00:12:09.540 --> 00:12:09.930

16146441844: I guess.

102

00:12:10.980 --> 00:12:12.990

16146441844: We sent this out and we got

103

00:12:14.250 --> 00:12:21.240

16146441844: I don't know how many people got it, but we got about 120 responses that we felt like that was enough of the

104

00:12:22.470 --> 00:12:34.710

16146441844: feedback that we, you know, it was 10 or 15 we would have said, Oh, this isn't working. But we thought we got pretty decent feedback. So I would really work. I was really pleased with the response.

105

00:12:34.740 --> 00:12:43.980

15127767111: The number of responses that we had gotten for the first one. And I know we did put a decent amount of work and making sure that it was short and you know only took a few minutes and

106

00:12:44.310 --> 00:12:53.190

15127767111: Luckily for us to. It's the kind of questions that a person can just respond off the top of their head. It's not like you need to go ask somebody to do queries for you.

107

00:12:54.570 --> 00:12:57.780

15127767111: So yeah, I think that's great. I think that

108

00:12:59.070 --> 00:13:09.120

15127767111: It's being responsive and since we have these ideas. I mean, I don't mean I know we all, I think we all have great ideas, but it's always better if we can get it from the membership so

109

00:13:09.450 --> 00:13:16.650

15127767111: Thank you. I appreciate that. Lynn. It's always better or easier to start with something and not a blank page, you know,

110

00:13:18.360 --> 00:13:30.570

Angela Meisner: This is Angela. I just had another thought with that might be helpful. Is this in a survey, if there's some kind of question about what that person's role is so you can get an idea of, you know,

111

00:13:31.050 --> 00:13:33.990

19197333526: I agree. Using what and how it applies to them.

112

00:13:35.910 --> 00:13:36.390

19197333526: I agree.

113

00:13:36.840 --> 00:13:39.330

15127767111: Yeah, because we have such a broad diversity of

114

00:13:40.350 --> 00:13:48.150

15127767111: Of Staff and even in the smaller industries. I think there's still different you know great lines of folks. So yeah, I agree.

115

00:13:48.990 --> 00:13:56.940

16146441844: And Angela when you mentioned that I know there was a survey we did recently where we did have a question like that, it was the one on training.

116

00:13:57.390 --> 00:14:05.940

16146441844: Yeah. Yeah, I agree. I wouldn't mind sending that out. I think if we ask the question, the same way every time. It also provides for consistency. So

117

00:14:05.970 --> 00:14:13.140

Angela Meisner: Right, because we're we're working on another questionnaire and that just keeps coming up. So I think you're right, having kind of a standard way of asking it would be

118

00:14:13.650 --> 00:14:14.460

19197333526: Good idea.

119

00:14:14.490 --> 00:14:16.860

15127767111: I'm sure I've seen it, too. Yeah.

120

00:14:17.580 --> 00:14:21.750

16146441844: Okay, coming around. And it totally it totally does make a difference.

121

00:14:22.170 --> 00:14:33.330

15127767111: Like you know they can have a coating like in our newsletter for Texas like the coding corner I read it and interest to me, but a lot of it's great because I'm not a CTR

122

00:14:34.440 --> 00:14:43.470

15127767111: Staging or whatever the issue. Does your is so yeah i think that the responses can absolutely be

123

00:14:44.970 --> 00:14:52.740

15127767111: It's going to depend on who's answering. So, okay, good. I think that's a great idea. Thank you, Lynn for looking at that and providing that suggestion.

124

00:14:55.380 --> 00:14:56.790

19197333526: Since Kendrick is on the phone.

125

00:14:56.790 --> 00:15:01.110

15127767111: Now Chandrika or do you know are we doing, I saw the CB trust article

126

00:15:02.880 --> 00:15:07.170

15127767111: Are we doing okay in terms of Article submissions, or do you have a sense of that yet.

127

00:15:08.550 --> 00:15:12.030

19197333526: The low, I think, Susan center corner.

128

00:15:13.560 --> 00:15:21.540

19197333526: Yeah, so then Grossman and then I need to check with Monica will not receive that many articles. Okay.

129

00:15:23.040 --> 00:15:28.920

15127767111: Yeah, and I was thinking to the timing of it. I mean, it seems we used to. Now, last

130

00:15:28.950 --> 00:15:42.990

15127767111: Year. We didn't have a spring news newsletter, but in previous years, I always I remember writing it when we hosted the nature conference and then also just as a Peter, I always enjoyed

131

00:15:43.380 --> 00:15:58.050

15127767111: Seeing a preview. It used to be that there was always a note from the program chair and article or something, highlighting the conference in there. And so I'll follow up with you to Chandrika because I think we could add some content.

132

00:15:59.280 --> 00:16:06.600

15127767111: Related to the conference at this point I'm on the program committee and we pretty much at this point know who's, who's speaking

133

00:16:07.980 --> 00:16:08.610

19197333526: And what's the

134

00:16:08.640 --> 00:16:13.500

15127767111: You know, we know the theme and those people. It's also on the website, but not everybody

135

00:16:13.560 --> 00:16:15.390

19197333526: It helps to message things in through

136

00:16:15.390 --> 00:16:17.310

15127767111: Multiple ways. Yeah, it's like a

137

00:16:18.090 --> 00:16:20.310

15127767111: teaser. Yeah, yeah.

138

00:16:20.820 --> 00:16:23.790

15127767111: It wasn't, it wasn't not a hard article, the writer, remember

139

00:16:26.070 --> 00:16:26.340

19197333526: Yeah.

140

00:16:27.780 --> 00:16:30.270

19197333526: And also, I was thinking of sending one more reminder

141

00:16:31.980 --> 00:16:36.960

19197333526: I'm to say asking people to turn in their articles before the end of this week.

142

00:16:37.560 --> 00:16:37.830

Yeah.

143

00:16:40.980 --> 00:16:41.550

19197333526: Sounds good.

144

00:16:43.560 --> 00:16:47.580

15127767111: Okay. Um, is there anything else in the narrative y'all can think of.

145

00:16:50.040 --> 00:16:58.680

15127767111: Okay, well then let's go ahead and move on. So I hadn't heard from anybody out if you had a chance. Last time I had mentioned, if you had any suggestions or changes to our goals.

146

00:16:59.370 --> 00:17:11.670

15127767111: I have a steering committee report do the 27th, although I feel like I can complete it, but I'll go ahead and when I have a draft hope to have drafted by the end of the week.

147

00:17:13.830 --> 00:17:27.510

15127767111: I will send it out to you guys and if you have any comments, let me know. And that way, I'll make sure and get it to a certain time. And then we do have an in person meeting planned February 3 to the fifth.

148

00:17:29.700 --> 00:17:35.280

15127767111: Where I'm presuming we'll go over our reports and whatnot. So I'm looking forward to that. And then

149

00:17:37.590 --> 00:17:49.650

15127767111: We what else we have been working on. I appreciate Tyler Katie and mostly TYLER'S BEEN. Thank you. Tyler has been sending out. We started early for the suggestion last year for membership.

150

00:17:50.940 --> 00:18:06.210

15127767111: on promoting World Cancer day. And so that's great. And that way if folks want to promote it themselves. They can that also, I think it's just great to have earlier awareness of it coming up.

151

00:18:06.870 --> 00:18:18.750

15127767111: And then I did include for you all the week Katie had revised to schedule based on feedback that we've received and so you guys have the latest, greatest

152

00:18:19.140 --> 00:18:26.490

15127767111: Revised schedule and I'll make sure that gets uploaded to the SharePoint site or it's not SharePoint, whatever the name of the site is we use for nature.

153

00:18:27.060 --> 00:18:36.000

15127767111: And and then also yesterday and that seems like said it's helpful I think that we're thinking about it ahead of time and crept up on us last year.

154

00:18:37.260 --> 00:18:37.800

15127767111: Suddenly,

155

00:18:38.820 --> 00:18:51.960

15127767111: But she had sent a link where they had these short but mighty videos. And so I sent that email to you all that she had shared that had

156

00:18:53.190 --> 00:19:00.420

15127767111: The links to the videos, but I thought that might be another I like the idea of another way of

157

00:19:02.130 --> 00:19:12.480

15127767111: Promoting World Cancer day for those who want to see it. It's very I just watched one. It's very short. But it was positive. Do you guys have any you know that seem okay to you.

158

00:19:14.580 --> 00:19:14.940

15127767111: Yeah.

159

00:19:16.500 --> 00:19:16.740

19197333526: Yeah.

160

00:19:18.240 --> 00:19:18.870

15127767111: Something different.

161

00:19:20.790 --> 00:19:25.140

15127767111: You can always link to this on social media. Yeah, exactly. Exactly.

162

00:19:26.190 --> 00:19:33.360

15127767111: Yeah, okay. And so we'll plan to include those and link to those on social media and

163

00:19:35.400 --> 00:19:36.930

19197333526: And then also we

164

00:19:36.930 --> 00:19:40.290

15127767111: Can if you can add like I don't know that they're available every year.

165

00:19:41.460 --> 00:19:47.040

15127767111: I don't, or if it's just this time, but we can make a note on the also on the

166

00:19:48.240 --> 00:19:58.050

15127767111: It's a living document Katie that another World Cancer schedule, but we can make a note that, you know, if the videos are available.

167

00:19:59.820 --> 00:20:12.900

15127767111: To, you know, have them on social media. So we, we, Katie. Katie, can we can adapt scheduled to mention that. Yeah. Well, I'm trying there says that she was having problems with our scheduler that the

168

00:20:13.440 --> 00:20:25.110

15127767111: The image files that we have to back. So what we could do, instead of including an image file is putting a link to the videos. I think there are, they're probably like on YouTube. Yeah.

169

00:20:26.220 --> 00:20:39.060

15127767111: And to that way. Like, that's the way to deal with that. Yeah. Cuz the images were just from the World Cancer yeah site. So we didn't have control over that. Does that sound to you, Tyler
Yeah, yeah.

170

00:20:39.090 --> 00:20:42.840

Tyler Scott: That's. That sounds like a great idea, actually. Okay, good.

171

00:20:42.960 --> 00:20:50.430

15127767111: So we solve that problem. Yeah. And then also have a balance, nice to watch a video. Occasionally, not just read

172

00:20:51.540 --> 00:20:59.160

15127767111: You know, they didn't have as many wicked images in there as soon as I did last year and I didn't

173

00:20:59.970 --> 00:21:10.530

15127767111: I guess every use the ones from last year, they're not using those and I didn't want. Yeah. Maybe it's because they did switch to video because I I looked through the kit pretty carefully. Last year I thought

174

00:21:10.860 --> 00:21:19.950

15127767111: You know, it's hard year ago but I'm pretty sure I did and I don't remember seeing videos. I don't think they have videos and the kids this year might just be something. Oh.

175

00:21:20.400 --> 00:21:29.850

15127767111: I see, okay, or they might have it in some other document and I weren't links like on their website. So I think I had seen it on there unless I just yeah without paying attention.

176

00:21:30.630 --> 00:21:42.720

15127767111: And again, we were like scrambling a little bit last year. So yeah. Another benefit to getting it on time and on schedule. So, okay, well good. I think that'll be great. And, um,

177

00:21:44.340 --> 00:21:47.910

15127767111: And then the publication of the recent seen in addition

178

00:21:49.020 --> 00:22:05.730

15127767111: I don't, I don't know if did you guys did it go out, honestly. So we're applying for cirie and I am out of my mind trying to finish our application. So I'm going to tell you right up front that I feel pretty spacey because I'm just have one thing on my mind.

179

00:22:06.990 --> 00:22:07.620

15127767111: But

180

00:22:09.060 --> 00:22:19.230

15127767111: I don't know that I saw that anything else happened with this, but we weren't asked. I asked to do it yeah no resend that receptor.

181

00:22:19.230 --> 00:22:30.420

19167088860: Has never responded to my email. So I'm not sure exactly where it is right at the moment, but this actually brings up a really good thing for me to do it, it triggers me to send a follow up email so

182

00:22:31.200 --> 00:22:33.060

15127767111: No, nothing else happened and thank you.

183

00:22:33.060 --> 00:22:33.720

19167088860: For bringing it up.

184

00:22:34.170 --> 00:22:43.200

15127767111: Okay, no problem. Well, and I'm going to tell you guys, my experience on this committee so far as that happens like part of our role, of course, is to be available.

185

00:22:43.410 --> 00:22:45.270

15127767111: And we're happy to promote whatever

186

00:22:45.300 --> 00:22:47.580

15127767111: People say they need us to or, you know,

187

00:22:48.090 --> 00:22:49.470

19197333526: And they want help with but

188

00:22:49.830 --> 00:22:58.800

15127767111: It seems like about 50% of the time it doesn't happen. So, but as long as it's not us. You know, I'm like, it's fine if they don't actually need it or

189

00:22:59.220 --> 00:23:11.100

15127767111: The product didn't get released that happened with ACS CAN state profiles, we still haven't had any final ones. And that was one of the first things I think I've been asked for us to help promote

190

00:23:12.000 --> 00:23:23.070

15127767111: But we're ready whenever they're ready if they decide they still want to use us. And so I will make the same note on the scene. And so I'll just leave it and I made a note this time.

191

00:23:25.770 --> 00:23:29.400

Angela Meisner: Thank think the profiles aren't aren't happening right

192

00:23:31.020 --> 00:23:32.040

Angela Meisner: Far as I know

193

00:23:32.670 --> 00:23:39.690

15127767111: God was. I mean, they were having something called. Is that what you heard Angela yet or no i'm i'm on RD. You and I

194

00:23:39.720 --> 00:23:45.540

Angela Meisner: Think I think that's the last I heard that it just, they were having a hard time getting them. Uh huh.

195

00:23:45.960 --> 00:23:50.040

15127767111: I know I had expressed some concern about the quality of some of them.

196

00:23:51.210 --> 00:23:54.690

15127767111: And they weren't standardized, but that was like really early on.

197

00:23:55.050 --> 00:23:56.820

Angela Meisner: Yeah, and then they've had a few

198

00:23:56.820 --> 00:23:57.570

Calls

199

00:24:00.330 --> 00:24:16.530

15127767111: Which case I politely bowed out and just said, you know, when you guys get it worked out and have them. Then I'll then we'll come to us and we'll promote them. So, okay, and I don't mind, I can follow up and ask about that. And if you want me to. I can

200

00:24:16.530 --> 00:24:18.540

Angela Meisner: do just that would be great. That would be great.

201

00:24:18.720 --> 00:24:21.720

15127767111: But we just got obviously already taking it off the

202

00:24:22.110 --> 00:24:22.800

15127767111: Is it was

203

00:24:23.550 --> 00:24:24.540

Angela Meisner: Hanging out there.

204

00:24:24.810 --> 00:24:31.440

15127767111: But this was only the second month. We've had seen it on there. So I'll leave seen on there for now. But that'd be great. I appreciate that Angeles

205

00:24:32.100 --> 00:24:33.600

Angela Meisner: And we, again, we are happy to do

206

00:24:33.600 --> 00:24:39.030

15127767111: Whatever, because I do think it's a big deal if they decide to move forward with them and we want to promote them.

207

00:24:40.470 --> 00:24:41.730

15127767111: In a variety of ways.

208

00:24:43.320 --> 00:24:44.640

15127767111: Okay, um,

209

00:24:45.960 --> 00:24:49.380

15127767111: And he said Palio follow up with rescinded that who does

210

00:24:51.960 --> 00:24:56.850

15127767111: All these unmute driving. I think is Kyle. Yeah, it's okay. Yes, yes.

211

00:24:56.940 --> 00:25:06.210

19167088860: Yeah, I probably got the mute button, you know, figured out. So yes, um, I will follow up with this person, and I'll let you know the status. All right.

212

00:25:07.740 --> 00:25:08.760

15127767111: And this is Linda

213

00:25:08.850 --> 00:25:14.820

16146441844: A quick question is you know the answer to this, but who is the Chair of the research and data use steering committee.

214

00:25:15.930 --> 00:25:21.420

Angela Meisner: It's a Susan Gershman and Sarah Nash. Okay, yeah, we need to get people

215

00:25:21.420 --> 00:25:22.710

16146441844: Involved in this view.

216

00:25:27.120 --> 00:25:27.450

16146441844: Okay.

217

00:25:28.230 --> 00:25:35.310

15127767111: Great. And I have not worked on the in person meeting at the 2020 annual conference yet, but I will

218

00:25:36.600 --> 00:25:43.170

15127767111: Last year I got some really helpful feedback and suggestions from the board and the other steering committee chairs, so

219

00:25:44.730 --> 00:25:53.550

15127767111: I think our include that I'll toss that out to them to for any feedback or particular topics that they'd like us to cover for that and

220

00:25:55.110 --> 00:25:55.980

15127767111: And then

221

00:25:57.840 --> 00:26:01.260

15127767111: Also, I wanted to ask you guys, do you know yet.

222

00:26:02.310 --> 00:26:13.260

15127767111: Well, hopefully, since it's in country. Everybody can make it to the nature meeting, but I know Charlie and and Tyler has reached out to me about

223

00:26:13.770 --> 00:26:28.410

15127767111: When the good timing would be for us to meet. And so I was thinking that, you know, traditionally, the day before the conference starts is when the various steering committees with me and I was thinking that we would do it at that time.

224

00:26:30.120 --> 00:26:30.600

19197333526: But

225

00:26:31.230 --> 00:26:31.770

If

226

00:26:32.850 --> 00:26:39.810

15127767111: It's kind of, you know, I don't want to be just sitting in the room with the Tyler or with the laser focus so

227

00:26:41.100 --> 00:26:50.160

15127767111: As it gets closer, closer, a little bit closer. I'll, I'll check in with you guys, but I was thinking that we will do some time on that. I think it's typically Monday.

228

00:26:50.940 --> 00:27:00.090

19197333526: Yeah, that's, that's a good idea. We used to do that two years back, and the last couple of years I was there a day ahead but we did not have any meetings.

229

00:27:02.160 --> 00:27:07.590

15127767111: Yeah, I definitely I consciously didn't do it last year, but was planning on doing it this year.

230

00:27:09.060 --> 00:27:22.560

16146441844: So Melanie. I also sit on the professional development committee. And one of the things we were talking about was to how to get people more involved in a sir. And one of the suggestions that

231

00:27:22.560 --> 00:27:33.210

16146441844: I had thrown out there was that if you know I've always seen these committee meetings when they occurred is kind of being separate thing that you only come if you're a member of the committee.

232

00:27:33.780 --> 00:27:34.020

But

233

00:27:35.100 --> 00:27:41.460

16146441844: I guess what I had suggested to them. And I don't know, we haven't. I think our call is next week, but

234

00:27:41.910 --> 00:27:47.550

16146441844: You know, I think it could be an opportunity to say these committee meetings are meeting or these committees are meeting.

235

00:27:47.940 --> 00:27:55.770

16146441844: And if you might have interest in knowing more about what the committee does or potentially wanting to become a member

236

00:27:56.760 --> 00:28:02.310

16146441844: That they be made, you know, that maybe we had to make that known because

237

00:28:02.670 --> 00:28:14.550

16146441844: As I said I would always get to the conference, but I felt like oh no I'm not supposed to go to this because I'm not a member of the committee, but I think, again, if we're trying to bring more people in maybe it's an opportunity

238

00:28:16.350 --> 00:28:16.680

Angela Meisner: Oh,

239

00:28:16.800 --> 00:28:23.760

19197333526: Oh, sorry. I think for a while, one or two of committees is it's a closed meeting and

240

00:28:23.880 --> 00:28:24.900

19197333526: Whether that be

241

00:28:26.910 --> 00:28:31.410

15127767111: They specify it typically or at least they had in the past. I thought in the

242

00:28:31.410 --> 00:28:32.670

15127767111: Program but

243

00:28:33.930 --> 00:28:44.580

15127767111: You know, so we can make sure in the in the program that we make it clear that it is open to anyone who's interested in learning more about the committee, but I have also experienced the closed one

244

00:28:45.030 --> 00:28:49.710

15127767111: Which I remember the time I looked at them was like serious. I said, seriously, what are you going to

245

00:28:49.710 --> 00:28:51.960

15127767111: Talk about like, why can't I said earlier,

246

00:28:54.150 --> 00:28:57.300

15127767111: So yeah, I want to say Arzu and

247

00:28:57.300 --> 00:28:59.190

16146441844: Everybody will come to ours and

248

00:29:00.930 --> 00:29:01.410

You know what

249

00:29:02.430 --> 00:29:12.870

Angela Meisner: Okay, this is Angela. So, you know, I'm leading this ambassador program that I'm calling it now and sort of, you know, trying to get people involved. And when you have some great ideas and I'm hoping to

250

00:29:14.280 --> 00:29:17.880

16146441844: Hopefully call you. So because I wanted to touch base on the email that you sent

251

00:29:18.420 --> 00:29:24.240

Angela Meisner: And I think that's a good idea. And I wonder, because we're planning a meet and greet at the annual conference.

252

00:29:24.930 --> 00:29:33.420

Angela Meisner: That, you know, I wanted to invite the chairs of the steering committees to be there. And so that if, if the steering committee in person meeting is closed.

253

00:29:33.810 --> 00:29:43.200

Angela Meisner: At least they can go to this meet and greet members can go there and sort of talk to the chairs and say, you know, What sorts of things do you have available either if it's a work group or the committee itself.

254

00:29:44.160 --> 00:29:45.180

16146441844: And that's great.

255

00:29:46.290 --> 00:29:47.850

15127767111: Yeah, and also about

256

00:29:48.750 --> 00:29:55.380

19197333526: Maybe some time now a couple of months before the actual conference date which will send out an

257

00:29:56.760 --> 00:30:01.020

19197333526: Email to this list, so about about this opportunities for committees.

258

00:30:01.980 --> 00:30:05.370

16146441844: Yeah, yeah. And I'm working with Charlie and I

259

00:30:06.090 --> 00:30:14.460

Angela Meisner: Talked to Betsy, a little bit too about promoting this meet and greet thing too. I have to get a sentence to them next week.

260

00:30:14.880 --> 00:30:22.740

Angela Meisner: But that would promote that. And it would say something like, if you, you know, if you needed to get involved in. We wanted to get involved. You could come to this thing and

261

00:30:25.020 --> 00:30:25.740

Angela Meisner: But oh

262

00:30:26.550 --> 00:30:37.350

15127767111: Yeah, I think that's super and I and you know last year was hard. I mean, it was a great meeting, but it was hard and different because we had. It was a joint meeting. And so I think that there is

263

00:30:39.600 --> 00:30:41.400

16146441844: A lot more opportunity for that to

264

00:30:41.400 --> 00:30:47.100

15127767111: Promote participation and and joining committees and being more involved in nature at this meeting.

265

00:30:47.130 --> 00:30:48.960

15127767111: So I think we'll have more

266

00:30:48.990 --> 00:30:57.210

15127767111: Stay attendance. I mean, there was a fair number of people, including folks on our committee that couldn't go with it being in Canada.

267

00:30:57.870 --> 00:30:58.200

16146441844: Mm hmm.

268

00:30:59.040 --> 00:31:05.070

16146441844: And I think the other thing, too, is to get the word out sooner than later, because if people start making

269

00:31:06.510 --> 00:31:14.310

16146441844: If they're flying and they're making arrangements, you know, they may miss the meeting because they didn't think the schedule for it so

270

00:31:15.060 --> 00:31:23.250

16146441844: You know, in a way, I think we kind of have to give enough lead time. So if people do want to put it on their schedule that they they get a flight that gets from there and time.

271

00:31:24.180 --> 00:31:26.040

15127767111: Absolutely. Yeah, I agree.

272

00:31:26.340 --> 00:31:38.250

19197333526: Yeah, for example, right now I'm working on the Travel Authorization for NCR in Mesa, maybe this is the right time to send out an email you stick and add another day to day conference.

273

00:31:42.720 --> 00:31:48.720

16146441844: And just speaking of that, I know it's kind of all over the place. Does anybody know why NCR rays so late this year.

274

00:31:50.520 --> 00:32:02.820

16146441844: What that's going to do to participation. It's been happening, it's, it's actually not just this year, it started. I mean, cuz I went to. I never go to both of them, but I did last year.

275

00:32:03.600 --> 00:32:18.600

16146441844: And I mean it was after Mother's Day. I remember it was even that was in late May. Yeah, it just seems to be it. I guess I like you know we send people we're probably going to send different people to both meeting and

276

00:32:19.830 --> 00:32:22.380

19167088860: But it just seemed like it. I don't know.

277

00:32:22.440 --> 00:32:27.600

16146441844: I it was just curious to me when I thought yeah in my

278

00:32:28.050 --> 00:32:36.960

19167088860: This is Kyle, in my experience, being on the board. The NCR a board and the past, a lot of it has to do with hotel availability.

279

00:32:38.580 --> 00:32:45.060

19167088860: When you approach the hotel and you tell him I wanted this week. And they're like, we're we're booked this week in a look around.

280

00:32:45.480 --> 00:33:03.210

19167088860: Trying to find a hotel that will fit your time and your number of attendees you're given dates that are available. And then you take it, you know. So I think some of this has to do with hotel availability. Unfortunately, because it definitely used to

281

00:33:03.210 --> 00:33:04.950

15127767111: Be earlier.

282

00:33:05.700 --> 00:33:07.800

19167088860: For sure. Yeah, it did.

283

00:33:08.490 --> 00:33:08.910

19167088860: And

284

00:33:09.300 --> 00:33:10.950

19167088860: In this year. Nice, or is even

285

00:33:11.040 --> 00:33:13.020

19167088860: A week later than usual, isn't it.

286

00:33:13.800 --> 00:33:14.070

Well,

287

00:33:16.290 --> 00:33:26.820

15127767111: Yeah, yeah. It's very someone in nature. But I'm always happier when it's later in the chatroom than earlier because it's a traditionally associated kid in school.

288

00:33:30.210 --> 00:33:30.870

15127767111: So, yeah.

289

00:33:33.060 --> 00:33:33.570

19167088860: Okay.

290

00:33:34.260 --> 00:33:38.850

15127767111: Well, I think this is all really good very helpful and

291

00:33:40.560 --> 00:33:41.940

19197333526: Gosh, I

292

00:33:42.510 --> 00:33:55.830

15127767111: I actually, I like the idea. I think they have the I'm excited about the ambassador program. So I think that's going to be really super and I do think it is a great opportunity to promote the committee's and participation. So I'll bring that on mentioned that I've made a note to

293

00:33:57.150 --> 00:34:13.020

15127767111: bring that to the board as well. And it's like, gosh, I didn't think that people were already doing their approvals for late June meeting. I mean, I'll have to do it probably three or four months in advance, but wow okay and Melanie I

294

00:34:13.710 --> 00:34:21.660

Angela Meisner: I'm going to try to touch base with all the steering committee chairs to about this ambassador program. So, if you don't mind. Oh, I'll be reaching out to you.

295

00:34:22.110 --> 00:34:27.810

15127767111: Oh yeah, sorry. I have my office. I'll do, I'll be there. I'll do it. Great. Thank you. Yeah, I know.

296

00:34:27.960 --> 00:34:36.570

19197333526: Angela new thing would be able to send up a piece for this Lisa meditative about this ambassador program. Sure. Yes.

297

00:34:38.160 --> 00:34:38.520

19197333526: Yeah.

298

00:34:39.750 --> 00:34:40.950

19197333526: It can be super show. I mean,

299

00:34:40.980 --> 00:34:52.290

15127767111: Paragraph I plan on doing the same thing. I've got to figure out what our birds of a feather is this year, although I have. I've narrowed it down to two ideas, but I was thinking myself to that I needed to

300

00:34:54.480 --> 00:35:04.860

15127767111: It's just good to nail it down. There's no no good benefit of procrastination. In that case. So, and then I could actually include a blurb to although I can send a listserv announcement out to but

301

00:35:05.940 --> 00:35:09.270

15127767111: It's easy enough to write a very paragraph long

302

00:35:11.970 --> 00:35:12.480

19197333526: Article

303

00:35:14.040 --> 00:35:15.450

15127767111: For mentioned for the newsletter.

304

00:35:17.130 --> 00:35:17.550

15127767111: Okay.

305

00:35:18.930 --> 00:35:21.780

15127767111: Well, um, is there any other business.

306

00:35:25.350 --> 00:35:26.730

15127767111: Alright, great. Well, then

307

00:35:27.090 --> 00:35:36.270

15127767111: We'll still plan on having our will have our February meeting and you guys have a good month I appreciate all of your feedback.

308

00:35:38.610 --> 00:35:39.540

19197333526: Have a good day, everybody.

309

00:35:41.910 --> 00:35:43.350

15127767111: Bye Melanie

310

00:35:44.700 --> 00:35:44.940

19197333526: Hi.
