NOTE: New for December 2019 Submission year, criteria for NAACCR Registry Certification is assessed for Certification year only. For the CiNA Monograph, criteria is based on the five years aggregated. For CiNA Research, the criteria are assessed is based on the entire span of years submitted—using single years of age. However, results from the CiNA Monograph results for recent data, which is aggregated, may be used based on whichever metric is most favorable. 12 Month case criteria do not impact certification or inclusion in CiNA. Other metrics are assessed for each year separately or combined as indicated.
