Deb Hurley (co-chair)	Gary Levin	Randi Rycroft		Fernanda Michels	April Austin
Colleen Sherman	Jenna Deniaud	Sandy Jones			

AGENDA ITEM	DECISION	ACTION/FOLLOW-UP
1. Roll		
2. Review minutes/action items from last meeting		• Minutes from January 27th were approved • Bobbi sent the DC table to Wendy. Lori H. will follow-up with Bobbi on the status.
3. Discussion Items		
a. ICD-O-3 WG Report - Lois For 2023 implementation of 5th Edition Blue Book only one update needed reviewed and has been completed. Lois was provided a list of codes in terms that were going to appear in the 5th Edition CNS Blue Book which has not yet been published. She made recommendations to adopt new terminology and some behavior code changes to the MLTG. Provided WHO and IARC stick with their release schedule we anticipate 5 additional Blue Books (Pediatric Tumors, Urinary, Dental, Head & Neck, Endocrine and Neuro Endocrine Tumors) and to come out this year that will require review for implementation in 2024. She thanked the group for the suggested volunteers for this group. Connie Boone joined from South Carolina and has been a great asset.		
b. Interstate Case Ownership TF Report – Wendy/Lori K. The discussion phase is completed, and an outline has been developed and posted to the groups SHARE site. Sections have been assigned for development. Sections will be reviewed and then combined for a final report.		
c. Non-Hospital Reporting – April/Lori K. April thought non-hospital reporting encompassed was too broad an area for the group to tackle. Lori added the way the S&RD work plan is currently written is this is intended to be a task force designed to set up a minimal reporting data set. Rich suggested if this task force deals with real time reporting it would be a good idea to involve CIAG.	• All agreed that this should be a task force for minimum reporting data set.	• Deb and Lori K. will use the template provided and begin working on the charter for this task force.
d. Cancer Informatics Advisory Group update – Eric/Gary Gary reported the summary on the Board list of informatics projects was sent to the NAACCR Board. The next steps planned are the		

timeliness of data/real time reporting and evaluating genomic data to see how it could impact our surveillance data.		
e. Mid-Level Tactical Group updates – Lori K./Deb A vote was taken on 8 new data items and recommendations will be going to HLSG. The one that generated the must discussion was the plan on how to handle the change of the CoC surgery codes. It looks like the recommendation will be a second data item.		
4. Other Business		
5. Tweet worthy for Communications SC		
6. Board liaison report – Wendy Aldinger The Board/Chair in-person meeting will take place next week.		
Next Meeting – Thursday, March 24, 2022 at 12:00 – 1:30 pm eastern
