

2015 – 2019

Cancer in North America

 PARTICIPATING REGISTRIES

 NOT PARTICIPATING

Cancer in North America: 2015–2019

Executive Summary

Members of the North American Association of Central Cancer Registries, Inc. (NAACCR) participate voluntarily in an annual call for data to develop a multi-registry, aggregated data resource for cancer surveillance and research. NAACCR issues the call, and the member registries' data submissions are combined and used to create the Cancer in North America (CiNA) monograph and other CiNA products for data analyses and cancer incidence information (e.g., NAACCR CiNA Explorer, NAACCR CiNA Maps online query system, CiNA Public Use Dataset, CiNA Research Datasets). These preeminent cancer data resources are unparalleled in geographic scope, timeliness of statistics, and assurance of standardization of information and data quality.

In May 2022, NAACCR released a five-volume monograph, *Cancer in North America: 2015–2019*. This release is the 32nd publication of the series and the 30th release that includes statistics for both Canada and the United States.

This year's publication includes cancer incidence data for all 50 U.S. states, the District of Columbia, Puerto Rico, and 11 Canadian provinces and territories. We also report data by five regions: California (excluding the Greater Bay area and Los Angeles) and four Surveillance, Epidemiology, and End Results (SEER) urban registries (Detroit, Los Angeles, San Francisco/Oakland, and Seattle). CiNA includes registry-specific data on stage at diagnosis, survival, and delay-adjusted estimates of counts and age-adjusted rates for selected cancers. These delay adjustment figures provide a projection of the likely volume of tardy reports of cancer for the time period and are recommended for use in assessing current cancer incidence trends.

New this year, all rates are age-adjusted based on 20 age groups, which now include an additional older age group, 85–90 years. As cancer is a significant burden among our older populations, this update provides more accurate descriptions of the burden of cancer in North America. To accommodate issues with underlying denominator data, racial/ethnic groups are presented differently. This change results in more accurate assessments of the burden of cancer among Asian and Pacific Islander populations and American Indian and Alaska Native (AI/AN) populations. This change in racial/ethnic calculations results in higher presented rates for these populations compared to previous monographs, particularly for AI/AN rates. It is critical to understand that these rates more accurately reflect the true burden of cancer in these populations but *do not* reflect a difference in the actual risk of cancer among these populations. These rates are a correction to previous calculations.

The CiNA monograph encompasses five separate volumes:

Volume One: Combined Cancer Incidence for the United States and Canada

Includes aggregated cancer incidence data by site, sex, race, ethnicity, and stage, including pediatric cancer and cancer by stage at diagnosis from the high-quality registries in the U.S. and Canada.

Volume Two: Registry-Specific Cancer Incidence for the United States and Canada

Includes registry-specific cancer incidence rates by cancer site, sex, race, ethnicity, and stage for all NAACCR member registries submitting data for inclusion in the monograph. To help interpret the statistics, data tables for each registry include demographic and data quality information; registry descriptions are also presented.

Volume Three: Registry-Specific Cancer Mortality for the United States and Canada

Includes registry-specific cancer death rates by cancer site, sex, race, and ethnicity.

Volume Four: Cancer Survival for the United States and Canada

Includes cancer survival data for the U.S. and Canada from 59 registries on more than 13 million cases diagnosed among North Americans between 2012 and 2018.

Volume Five: Cancer Prevalence for the United States and Canada

Includes cancer prevalence estimates for the U.S. and Canada from 59 registries on more than 18 million cases diagnosed among North Americans between 2009 and 2018.

All CiNA volumes are available to download free of charge from the NAACCR website, along with accompanying technical data, including population data and supporting appendices. Additional visualizations of CiNA data are available as online query systems available here: <https://www.naaccr.org/interactive-data-on-line/>.

This publication is made possible by the continuing efforts of the NAACCR member registries. High-quality, standardized cancer incidence data aggregated across the states, provinces, territories, and regions in North America are made possible by the dedication of our members to cancer surveillance. The Editors would like to acknowledge the fine work and support of the National Cancer Institute, the National Center for Health Statistics, and Statistics Canada for their assistance in developing this publication.

We hope that *Cancer in North America: 2015–2019*, with the companion CiNA products and resources, facilitates studies of cancer burden, so that we are better able to identify—and understand—appropriate and important measures to control the myriad diseases known collectively as cancer.

The Editors, May 2022

CANCER IN NORTH AMERICA: 2015–2019

VOLUME THREE: REGISTRY-SPECIFIC CANCER MORTALITY IN THE UNITED STATES AND CANADA

**A Publication of the North American Association of Central Cancer Registries, Inc.

Section I

Introduction and Technical Notes

Cancer in North America: 2015-2019, Three: Registry-Specific Cancer Mortality in the United States and Canada

Introduction and Technical Notes

INTRODUCTION

The North American Association of Central Cancer Registries, Inc. (NAACCR) is a professional organization that develops and promotes uniform data standards for cancer registration; provides education and training; certifies population-based registries; aggregates and publishes data from central cancer registries; and promotes the use of cancer surveillance data and systems for cancer control and epidemiologic research, public health programs, and patient care to reduce the burden of cancer in North America. NAACCR annually produces this statistical monograph on Cancer in North America (CiNA) to provide cancer incidence, mortality, and other cancer burden statistics for the United States, Canada, and North America.

Annual cancer statistics for the U.S., Canada, and North America are presented in each of the five CiNA volumes. This year marks the 32nd annual release of the series of CiNA monographs; and the 30th year CiNA has included data from both the U.S. and Canada. The *2022 CiNA Combined Monograph* includes data from 67 central population-based cancer registries: 56 from the U.S. (49 states, the District of Columbia, and Puerto Rico, plus 5 regions [California, excluding the Greater Bay area and Los Angeles, plus 4 metropolitan areas]) and 11 from Canada (9 provinces and 2 territories).

NAACCR issues an annual call for data to member registries, which submit data to support the creation of the CiNA monograph and other CiNA products (e.g., NAACCR CiNA Explorer, NAACCR CiNA Maps online query system, CiNA Public Use Dataset, CiNA Research Datasets). For more information on these products and the process for gaining access to them, please visit <https://www.naacr.org/cina-data-products-overview/>.

This monograph is a testament to the continuing commitment by population-based cancer registries throughout the U.S. and Canada to collect timely, complete, and accurate data that make this publication possible. An Editorial Board of member volunteers, with support from NAACCR staff and staff from Information Management Services, takes on the responsibility to oversee the call for data, evaluate all submissions, and make all editorial decisions in production of the monograph. The objective of this work is to provide timely and useful information on cancer burden for all geographic areas and racial/ethnic groups in the U.S. and Canada.

CONTENTS OF THE CiNA MONOGRAPH

The CiNA Monograph encompasses five separate volumes:

Volume One: Combined Cancer Incidence for the United States and Canada

Includes aggregated cancer incidence data by site, sex, race, ethnicity, and stage, including pediatric cancer and cancer by stage at diagnosis from the high-quality registries in the U.S. and Canada.

Volume Two: Registry-Specific Cancer Incidence for the United States and Canada

Includes registry-specific cancer incidence rates by cancer site, sex, race, ethnicity, and stage for all NAACCR member registries submitting data for inclusion in the monograph. To help interpret the statistics, data tables for each registry include demographic and data quality information; registry descriptions are also presented.

Volume Three: Registry-Specific Cancer Mortality for the United States and Canada

Includes registry-specific cancer death rates by cancer site, sex, race, and ethnicity.

Volume Four: Cancer Survival for the United States and Canada

Includes cancer survival data for the U.S. and Canada from 59 registries on more than 13 million cases diagnosed among North Americans between 2012 and 2018.

Volume Five: Cancer Prevalence for the United States and Canada

Includes cancer prevalence estimates for the U.S. and Canada from 59 registries on more than 18 million cases diagnosed among North Americans between 2009 and 2018.

In the U.S., cancer statistics are calculated for by race/ethnicity. The actual racial/ethnic groups vary by volume, based on data availability and statistical stability. Race and ethnicity information is not collected in Canada; therefore, Canadian data are not presented by race/ethnicity.

Rates are presented as average annual, age-adjusted rates using three different standard million populations: the 2000 U.S. (Census P25-1130), the 2011 Canadian, and the World (World Health Organization [WHO] 2000–2025) standard populations. We believe that presenting cancer rates adjusted to all three standards enhances the meaning and utility of the rates for users in the U.S., Canada, and international settings. Recent volumes of the *CiNA* publication, including sections containing rates standardized to the World Standard and the population counts used in the calculation of cancer rates, are available for download on the NAACCR website: <https://www.naaccr.org/cancer-in-north-america-cina-volumes>.

CiNA Volume Three: Registry-Specific Cancer Mortality for the United States and Canada

The mortality data presented in *CiNA Mortality* represent 100% population coverage in the U.S. and Canada. *CiNA Mortality* is composed of four sections:

Section 1: Introduction and Technical Notes

Section 2: Average Annual Registry-Specific Cancer Death Rates by Race and Sex, Age-Adjusted to the 2000 U.S. and World Population Standards

Includes average annual death counts and age-adjusted rates by registry. The statistics are presented by sex and, for the U.S., also by race.

Section 3: Average Annual Registry-Specific Cancer Death Rates by Race and Sex, Age-Adjusted to the 2011 Canadian and World Population Standards

Includes average annual death counts and age-adjusted rates by registry. The statistics are presented by sex and, for the U.S., also by race.

Section 4: Cancer Mortality for the United States and Canada

Includes average annual death counts and age-adjusted rates for U.S. and Canada. The statistics are presented by sex and, for the U.S., also by race and ethnicity. Rates are presented as average annual, age-adjusted rates using three different standard million populations: the 2000 U.S. (Census P25-1130), the 2011 Canadian, and the World (World Health Organization 2000–2025) standard populations. We believe that presenting cancer rates adjusted to all three standards enhances the meaning and utility of the rates for users in the U.S., Canada, and international settings.

TECHNICAL SECTION

SOURCES OF DATA

Mortality Data. Mortality data for 2015 to 2019 for the U.S. and Puerto Rico were obtained from the National Center for Health Statistics (NCHS) of the Centers for Disease Control and Prevention (CDC), as provided to the National Cancer Institute (NCI). The Canadian mortality data for 2015 to 2019 were provided by Statistics Canada. These data are available from Statistics Canada's Vital Statistics – Death Database (<http://www23.statcan.gc.ca/imdb/p2SV.pl?Function=getSurvey&SDDS=3233>).

Occasionally, the most current year of vital statistics data may be unavailable for a registry. When this is the case, the average annual counts and rates are based on the four years of available mortality data.

Population Estimates. To assist the reader, population estimates by age, sex, and race/ethnicity (where relevant) used in the calculation of rates in the monograph are available for each central registry, the U.S., and Canada. These data are available online on the NAACCR website at <https://www.naacrr.org/cancer-in-north-america-cina-volumes/#Population>.

Population estimates for 2015 through 2019 for the U.S., individual states, and SEER metropolitan areas were obtained from the SEER program. These estimates were based on U.S. Census Bureau population estimates for these years and represent a modification of the annual time series population estimates produced by the Population Estimates Program of the Census Bureau with support from NCI. The population estimates incorporate bridged, single-race estimates that are derived from the original multiple race categories in the 2010 Census. These bridged estimates are consistent with the four race groups enumerated in the 1990 Census and were produced under a collaborative arrangement between the National Center for Health Statistics and the Census Bureau. The methodology implemented by the Census Bureau to develop these county estimates is comparable to that used to produce national and state 1990–2000 intercensal estimates and is described on the Census Bureau's website.¹

In 2007, the U.S. Census revised its methodology for population estimation. This revision impacts all population denominators for 2015 to 2019. The main effect of this approach was on specific age groups older than 65. In many states, the new method results in a larger population increase in the younger age category and fewer in the older age category than was estimated in previous years.

NCI modifies the Census data for the population estimates for the state of Hawaii. The Epidemiology Program of the Hawai'i Cancer Research Center has developed its own set of population estimates, based on sample survey data collected by the Hawai'i Department of Health. This effort grew out of a concern that the native Hawaiian population had been vastly undercounted in previous censuses. The "Hawai'i adjustment" to the Census Bureau estimates has the net result of reducing the estimated white population and increasing the API population for the state. The Census Bureau estimates for the total population, Black population, and AI/AN populations in Hawai'i are unaffected. The details of the methodology are described elsewhere.²

For Canada, Statistics Canada provided the estimates of the Canadian population for all Canadian provinces and territories, adjusted for census net under coverage.

CODING, 2015-2019

Mortality Data. Underlying cause of death was coded using the International Classification of Diseases version 10 (ICD-10). Cancer deaths were defined as those coded C00 through C97 in ICD-10. The SEER Mortality Recode scheme was used to classify cancer deaths into the groupings used in Volume III (see Appendix B on the NAACCR website: <https://www.naacrr.org/cancer-in-north-america-cina-volumes/#Appendices>). U.S. mortality data are available for all 50 states plus Puerto Rico and Washington, DC. Canadian mortality data is available for all 13 provinces and territories.

Misclassification of American Indian and Alaskan Native Populations. The collection of accurate information on the cancer in American Indian and Alaskan Native (AI/AN) populations is hampered by misclassification of this population.³ In order to address this problem, the data on AI/AN Natives are restricted to those counties

where Indian Health Service Clinics are located, namely PRCDA counties (Purchased/Referred Care Delivery Area counties previously known as the Contract Health Service Delivery Areas (CHSDA) counties). This restriction assures that the data presented are the best available data for this population

CALCULATION OF STATISTICS

Counts. Counts are the average annual count rounded to nearest whole number. Cell suppression rules were applied based on the five-year aggregate count.

Rates. Rates are per 100,000 population and are age-adjusted by 20 five-year age groups to the 2000 U.S. standard population based on single years of age,^{4,5} the 2011 Canadian population standard,⁶ and to the World (WHO 2000-2025) population standard.⁷ Rates for children and adolescents in are expressed per million population. The incidence and death rates in this monograph are annual averages for the period 2015 through 2019.

The age distributions of the three population standards are as follows:

AGE GROUP	2000 U.S.	2011 CAN	WORLD
00 years	3,794,901	376,321	17,917
01-04 years	15,191,619	1,522,743	70,652
05-09 years	19,919,840	1,810,433	86,870
10-14 years	20,056,779	1,918,164	85,970
15-19 years	19,819,518	2,238,952	84,670
20-24 years	18,257,225	2,354,354	82,171
25-29 years	17,722,067	2,369,841	79,272
30-34 years	19,511,370	2,327,955	76,073
35-39 years	22,179,956	2,273,087	71,475
40-44 years	22,479,229	2,385,918	65,877
45-49 years	19,805,793	2,719,909	60,379
50-54 years	17,224,359	2,691,260	53,681
55-59 years	13,307,234	2,353,090	45,484
60-64 years	10,654,272	2,050,443	37,187
65-69 years	9,409,940	1,532,940	29,590
70-74 years	8,725,574	1,153,822	22,092
75-79 years	7,414,559	919,338	15,195
80-84 years	4,900,234	701,140	9,097
85-89 years	2,678,567	426,739	4,398
90+	1,580,606	216,331	1,950
Total	274,633,642	34,342,780	1,000,000

Standard Errors. Standard errors (S.E.) of the rates were calculated using the following formula:

$$S.E. = \sqrt{\sum \frac{w_j^2 n_j}{p_j^2}}$$

where w_j = the fraction of the standard population in age group j , n_j = number of cases or deaths in that age group, and p_j = person-years denominator.⁸ For many registries, S.E. of the rates are small, because the population covered is large. However, for registries that cover a small population, the S.E. may be substantial.

Confidence Intervals. Although not reproduced in the printed monograph, bar charts of the registry-specific, age-adjusted rates with 95% confidence intervals⁹ are available on the NAACCR website (<https://www.naacr.org/cancer-in-north-america-cina-volumes/#Appendices>). The confidence intervals allow the user to assess the precision of the estimate and is an approximate and conservative indicator of whether a

registry's rate is statistically higher or lower than the rate for the combined U.S., based on whether the upper or lower limit of the confidence interval overlaps the 95% confidence interval for the U.S.

Comparison of Rates. In addition to true regional variation in cancer risk, differences in cancer incidence or mortality rates between areas may be due to either differences in the demographic makeup of the population or differences in data quality. In making valid comparisons of cancer incidence rates among registries, it is important to review the data quality indicators for each registry and consider differences in the racial composition of the populations being compared before conclusions are drawn about variations in regional rates. Interpretation without consideration of these factors may contribute to misleading or inaccurate conclusions.

The S.E. of adjusted rates can be used to evaluate the statistical significance of rate differences among comparable populations. For example, if the adjusted rates in two populations are R_1 and R_2 and their standard errors are $S.E._1$ and $S.E._2$, an approximate confidence interval for the rate ratio can be calculated using the following formula:

$$(R_1/R_2)^{1 \pm z/x}$$

where $x = (R_1 \pm R_2) / \sqrt{(S.E._1^2 + S.E._2^2)}$ and $z = 1.96$ for 95% limits.¹⁰ If this interval does not include one, the two rates are statistically significantly different at a p value of 0.05. This test can be inaccurate for rates based on fewer than 16 cases or deaths, and it should not be used for rates based on fewer than 6 cases or deaths. It should be emphasized that this kind of comparison of adjusted rates must be undertaken with caution, because misleading conclusions may be drawn if the ratios of the age-specific rates in the two populations are not constant in all age groups. In these circumstances, the ratios of the adjusted rates will vary according to the standard populations used.¹¹

Cell Suppression. Counts and rates were suppressed (indicated by “*”) in the tables if the race, gender, and site-specific number of cases for incidence was less than six or when the number of deaths was less than 10. Complementary cell suppression was employed, when necessary, to prevent the contents of a single suppressed cell from being calculated. These counts are included in the calculation of all sites combined. “N/A” is used to indicate not applicable, as in the gender-specific cancers. If the rate was less than 0.05 per 100,000, the rate is listed as 0.0.

Abbreviations: CNS, Central Nervous System; NOS, Not Otherwise Specified; S.E., Standard Error

Rates are per 100,000 population and were age-adjusted using 20 age groups to the 2000 U.S. Standard Population as well as the World (WHO 2000-2025) Standard Population.

N/A Information about data not collected.

* Counts and rates are suppressed when fewer than 10 deaths were reported over the five year time period for the specific cancer. The suppressed counts, however, are included in the counts and rates for All Sites combined.

Abbreviations: CNS, Central Nervous System; NOS, Not Otherwise Specified; S.E., Standard Error

Rates are per 100,000 population and were age-adjusted using 20 age groups to the 2000 U.S. Standard Population as well as the World (WHO 2000-2025) Standard Population.

N/A Information about data not collected.

* Counts and rates are suppressed when fewer than 10 deaths were reported over the five year time period for the specific cancer. The suppressed counts, however, are included in the counts and rates for All Sites combined.

Abbreviations: CNS, Central Nervous System; NOS, Not Otherwise Specified; S.E., Standard Error

Rates are per 100,000 population and were age-adjusted using 20 age groups to the 2000 U.S. Standard Population as well as the World (WHO 2000-2025) Standard Population.

N/A Information about data not collected.

* Counts and rates are suppressed when fewer than 10 deaths were reported over the five year time period for the specific cancer. The suppressed counts, however, are included in the counts and rates for All Sites combined.

Abbreviations: CNS, Central Nervous System; NOS, Not Otherwise Specified; S.E., Standard Error

Rates are per 100,000 population and were age-adjusted using 20 age groups to the 2000 U.S. Standard Population as well as the World (WHO 2000-2025) Standard Population.

N/A Information about data not collected.

* Counts and rates are suppressed when fewer than 10 deaths were reported over the five year time period for the specific cancer. The suppressed counts, however, are included in the counts and rates for All Sites combined.

Abbreviations: CNS, Central Nervous System; NOS, Not Otherwise Specified; S.E., Standard Error

Rates are per 100,000 population and were age-adjusted using 20 age groups to the 2000 U.S. Standard Population as well as the World (WHO 2000-2025) Standard Population.

N/A Information about data not collected.

* Counts and rates are suppressed when fewer than 10 deaths were reported over the five year time period for the specific cancer. The suppressed counts, however, are included in the counts and rates for All Sites combined.

Abbreviations: CNS, Central Nervous System; NOS, Not Otherwise Specified; S.E., Standard Error

Rates are per 100,000 population and were age-adjusted using 20 age groups to the 2000 U.S. Standard Population as well as the World (WHO 2000-2025) Standard Population.

N/A Information about data not collected.

* Counts and rates are suppressed when fewer than 10 deaths were reported over the five year time period for the specific cancer. The suppressed counts, however, are included in the counts and rates for All Sites combined.

Abbreviations: CNS, Central Nervous System; NOS, Not Otherwise Specified; S.E., Standard Error

Rates are per 100,000 population and were age-adjusted using 20 age groups to the 2000 U.S. Standard Population as well as the World (WHO 2000-2025) Standard Population.

N/A Information about data not collected.

* Counts and rates are suppressed when fewer than 10 deaths were reported over the five year time period for the specific cancer. The suppressed counts, however, are included in the counts and rates for All Sites combined.

Rates are per 100,000 population and were age-adjusted using 20 age groups to the 2000 U.S. Standard Population as well as the World (WHO 2000-2025) Standard Population.

N/A Information about data not collected.

* Counts and rates are suppressed when fewer than 10 deaths were reported over the five year time period for the specific cancer. The suppressed counts, however, are included in the counts and rates for All Sites combined.

Rates are per 100,000 population and were age-adjusted using 20 age groups to the 2000 U.S. Standard Population as well as the World (WHO 2000-2025) Standard Population.

N/A Information about data not collected.

* Counts and rates are suppressed when fewer than 10 deaths were reported over the five year time period for the specific cancer. The suppressed counts, however, are included in the counts and rates for All Sites combined.

Rates are per 100,000 population and were age-adjusted using 20 age groups to the 2000 U.S. Standard Population as well as the World (WHO 2000-2025) Standard Population.

N/A Information about data not collected.

* Counts and rates are suppressed when fewer than 10 deaths were reported over the five year time period for the specific cancer. The suppressed counts, however, are included in the counts and rates for All Sites combined.

Abbreviations: CNS, Central Nervous System; NOS, Not Otherwise Specified; S.E., Standard Error

Rates are per 100,000 population and were age-adjusted using 20 age groups to the 2000 U.S. Standard Population as well as the World (WHO 2000-2025) Standard Population.

N/A Information about data not collected.

* Counts and rates are suppressed when fewer than 10 deaths were reported over the five year time period for the specific cancer. The suppressed counts, however, are included in the counts and rates for All Sites combined.

Rates are per 100,000 population and were age-adjusted using 20 age groups to the 2000 U.S. Standard Population as well as the World (WHO 2000-2025) Standard Population.

N/A Information about data not collected.

* Counts and rates are suppressed when fewer than 10 deaths were reported over the five year time period for the specific cancer. The suppressed counts, however, are included in the counts and rates for All Sites combined.

Rates are per 100,000 population and were age-adjusted using 20 age groups to the 2000 U.S. Standard Population as well as the World (WHO 2000-2025) Standard Population.

N/A Information about data not collected.

* Counts and rates are suppressed when fewer than 10 deaths were reported over the five year time period for the specific cancer. The suppressed counts, however, are included in the counts and rates for All Sites combined.

Abbreviations: CNS, Central Nervous System; NOS, Not Otherwise Specified; S.E., Standard Error

Rates are per 100,000 population and were age-adjusted using 20 age groups to the 2000 U.S. Standard Population as well as the World (WHO 2000-2025) Standard Population.

N/A Information about data not collected.

* Counts and rates are suppressed when fewer than 10 deaths were reported over the five year time period for the specific cancer. The suppressed counts, however, are included in the counts and rates for All Sites combined.

Abbreviations: CNS, Central Nervous System; NOS, Not Otherwise Specified; S.E., Standard Error

Rates are per 100,000 population and were age-adjusted using 20 age groups to the 2000 U.S. Standard Population as well as the World (WHO 2000-2025) Standard Population.

N/A Information about data not collected.

* Counts and rates are suppressed when fewer than 10 deaths were reported over the five year time period for the specific cancer. The suppressed counts, however, are included in the counts and rates for All Sites combined.

Rates are per 100,000 population and were age-adjusted using 20 age groups to the 2000 U.S. Standard Population as well as the World (WHO 2000-2025) Standard Population.

N/A Information about data not collected.

* Counts and rates are suppressed when fewer than 10 deaths were reported over the five year time period for the specific cancer. The suppressed counts, however, are included in the counts and rates for All Sites combined.

Abbreviations: CNS, Central Nervous System; NOS, Not Otherwise Specified; S.E., Standard Error

Rates are per 100,000 population and were age-adjusted using 20 age groups to the 2000 U.S. Standard Population as well as the World (WHO 2000-2025) Standard Population.

N/A Information about data not collected.

* Counts and rates are suppressed when fewer than 10 deaths were reported over the five year time period for the specific cancer. The suppressed counts, however, are included in the counts and rates for All Sites combined.

Rates are per 100,000 population and were age-adjusted using 20 age groups to the 2000 U.S. Standard Population as well as the World (WHO 2000-2025) Standard Population.

N/A Information about data not collected.

* Counts and rates are suppressed when fewer than 10 deaths were reported over the five year time period for the specific cancer. The suppressed counts, however, are included in the counts and rates for All Sites combined.

Abbreviations: CNS, Central Nervous System; NOS, Not Otherwise Specified; S.E., Standard Error

Rates are per 100,000 population and were age-adjusted using 20 age groups to the 2000 U.S. Standard Population as well as the World (WHO 2000-2025) Standard Population.

N/A Information about data not collected.

* Counts and rates are suppressed when fewer than 10 deaths were reported over the five year time period for the specific cancer. The suppressed counts, however, are included in the counts and rates for All Sites combined.

Rates are per 100,000 population and were age-adjusted using 20 age groups to the 2000 U.S. Standard Population as well as the World (WHO 2000-2025) Standard Population.

N/A Information about data not collected.

* Counts and rates are suppressed when fewer than 10 deaths were reported over the five year time period for the specific cancer. The suppressed counts, however, are included in the counts and rates for All Sites combined.

Abbreviations: CNS, Central Nervous System; NOS, Not Otherwise Specified; S.E., Standard Error

Rates are per 100,000 population and were age-adjusted using 20 age groups to the 2000 U.S. Standard Population as well as the World (WHO 2000-2025) Standard Population.

N/A Information about data not collected.

* Counts and rates are suppressed when fewer than 10 deaths were reported over the five year time period for the specific cancer. The suppressed counts, however, are included in the counts and rates for All Sites combined.

Abbreviations: CNS, Central Nervous System; NOS, Not Otherwise Specified; S.E., Standard Error

Rates are per 100,000 population and were age-adjusted using 20 age groups to the 2000 U.S. Standard Population as well as the World (WHO 2000-2025) Standard Population.

N/A Information about data not collected.

* Counts and rates are suppressed when fewer than 10 deaths were reported over the five year time period for the specific cancer. The suppressed counts, however, are included in the counts and rates for All Sites combined.

Abbreviations: CNS, Central Nervous System; NOS, Not Otherwise Specified; S.E., Standard Error

Rates are per 100,000 population and were age-adjusted using 20 age groups to the 2000 U.S. Standard Population as well as the World (WHO 2000-2025) Standard Population.

N/A Information about data not collected.

* Counts and rates are suppressed when fewer than 10 deaths were reported over the five year time period for the specific cancer. The suppressed counts, however, are included in the counts and rates for All Sites combined.

Abbreviations: CNS, Central Nervous System; NOS, Not Otherwise Specified; S.E., Standard Error

Rates are per 100,000 population and were age-adjusted using 20 age groups to the 2000 U.S. Standard Population as well as the World (WHO 2000-2025) Standard Population.

N/A Information about data not collected.

* Counts and rates are suppressed when fewer than 10 deaths were reported over the five year time period for the specific cancer. The suppressed counts, however, are included in the counts and rates for All Sites combined.

Abbreviations: CNS, Central Nervous System; NOS, Not Otherwise Specified; S.E., Standard Error

Rates are per 100,000 population and were age-adjusted using 20 age groups to the 2000 U.S. Standard Population as well as the World (WHO 2000-2025) Standard Population.

N/A Information about data not collected.

* Counts and rates are suppressed when fewer than 10 deaths were reported over the five year time period for the specific cancer. The suppressed counts, however, are included in the counts and rates for All Sites combined.

Rates are per 100,000 population and were age-adjusted using 20 age groups to the 2000 U.S. Standard Population as well as the World (WHO 2000-2025) Standard Population.

N/A Information about data not collected.

* Counts and rates are suppressed when fewer than 10 deaths were reported over the five year time period for the specific cancer. The suppressed counts, however, are included in the counts and rates for All Sites combined.

Rates are per 100,000 population and were age-adjusted using 20 age groups to the 2000 U.S. Standard Population as well as the World (WHO 2000-2025) Standard Population.

N/A Information about data not collected.

* Counts and rates are suppressed when fewer than 10 deaths were reported over the five year time period for the specific cancer. The suppressed counts, however, are included in the counts and rates for All Sites combined.

Abbreviations: CNS, Central Nervous System; NOS, Not Otherwise Specified; S.E., Standard Error

Rates are per 100,000 population and were age-adjusted using 20 age groups to the 2000 U.S. Standard Population as well as the World (WHO 2000-2025) Standard Population.

N/A Information about data not collected.

* Counts and rates are suppressed when fewer than 10 deaths were reported over the five year time period for the specific cancer. The suppressed counts, however, are included in the counts and rates for All Sites combined.

Rates are per 100,000 population and were age-adjusted using 20 age groups to the 2000 U.S. Standard Population as well as the World (WHO 2000-2025) Standard Population.

N/A Information about data not collected.

* Counts and rates are suppressed when fewer than 10 deaths were reported over the five year time period for the specific cancer. The suppressed counts, however, are included in the counts and rates for All Sites combined.

Rates are per 100,000 population and were age-adjusted using 20 age groups to the 2000 U.S. Standard Population as well as the World (WHO 2000-2025) Standard Population.

N/A Information about data not collected.

* Counts and rates are suppressed when fewer than 10 deaths were reported over the five year time period for the specific cancer. The suppressed counts, however, are included in the counts and rates for All Sites combined.

Abbreviations: CNS, Central Nervous System; NOS, Not Otherwise Specified; S.E., Standard Error

Rates are per 100,000 population and were age-adjusted using 20 age groups to the 2000 U.S. Standard Population as well as the World (WHO 2000-2025) Standard Population.

N/A Information about data not collected.

* Counts and rates are suppressed when fewer than 10 deaths were reported over the five year time period for the specific cancer. The suppressed counts, however, are included in the counts and rates for All Sites combined.

Rates are per 100,000 population and were age-adjusted using 20 age groups to the 2000 U.S. Standard Population as well as the World (WHO 2000-2025) Standard Population.

N/A Information about data not collected.

* Counts and rates are suppressed when fewer than 10 deaths were reported over the five year time period for the specific cancer. The suppressed counts, however, are included in the counts and rates for All Sites combined.

Abbreviations: CNS, Central Nervous System; NOS, Not Otherwise Specified; S.E., Standard Error

Rates are per 100,000 population and were age-adjusted using 20 age groups to the 2000 U.S. Standard Population as well as the World (WHO 2000-2025) Standard Population.

N/A Information about data not collected.

* Counts and rates are suppressed when fewer than 10 deaths were reported over the five year time period for the specific cancer. The suppressed counts, however, are included in the counts and rates for All Sites combined.

Abbreviations: CNS, Central Nervous System; NOS, Not Otherwise Specified; S.E., Standard Error

Rates are per 100,000 population and were age-adjusted using 20 age groups to the 2000 U.S. Standard Population as well as the World (WHO 2000-2025) Standard Population.

N/A Information about data not collected.

* Counts and rates are suppressed when fewer than 10 deaths were reported over the five year time period for the specific cancer. The suppressed counts, however, are included in the counts and rates for All Sites combined.

Rates are per 100,000 population and were age-adjusted using 20 age groups to the 2000 U.S. Standard Population as well as the World (WHO 2000-2025) Standard Population.

N/A Information about data not collected.

* Counts and rates are suppressed when fewer than 10 deaths were reported over the five year time period for the specific cancer. The suppressed counts, however, are included in the counts and rates for All Sites combined.

Abbreviations: CNS, Central Nervous System; NOS, Not Otherwise Specified; S.E., Standard Error

Rates are per 100,000 population and were age-adjusted using 20 age groups to the 2000 U.S. Standard Population as well as the World (WHO 2000-2025) Standard Population.

N/A Information about data not collected.

* Counts and rates are suppressed when fewer than 10 deaths were reported over the five year time period for the specific cancer. The suppressed counts, however, are included in the counts and rates for All Sites combined.

Rates are per 100,000 population and were age-adjusted using 20 age groups to the 2000 U.S. Standard Population as well as the World (WHO 2000-2025) Standard Population.

N/A Information about data not collected.

* Counts and rates are suppressed when fewer than 10 deaths were reported over the five year time period for the specific cancer. The suppressed counts, however, are included in the counts and rates for All Sites combined.

Abbreviations: CNS, Central Nervous System; NOS, Not Otherwise Specified; S.E., Standard Error

Rates are per 100,000 population and were age-adjusted using 20 age groups to the 2000 U.S. Standard Population as well as the World (WHO 2000-2025) Standard Population.

N/A Information about data not collected.

* Counts and rates are suppressed when fewer than 10 deaths were reported over the five year time period for the specific cancer. The suppressed counts, however, are included in the counts and rates for All Sites combined.

Rates are per 100,000 population and were age-adjusted using 20 age groups to the 2000 U.S. Standard Population as well as the World (WHO 2000-2025) Standard Population.

N/A Information about data not collected.

* Counts and rates are suppressed when fewer than 10 deaths were reported over the five year time period for the specific cancer. The suppressed counts, however, are included in the counts and rates for All Sites combined.

Abbreviations: CNS, Central Nervous System; NOS, Not Otherwise Specified; S.E., Standard Error

Rates are per 100,000 population and were age-adjusted using 20 age groups to the 2000 U.S. Standard Population as well as the World (WHO 2000-2025) Standard Population.

N/A Information about data not collected.

* Counts and rates are suppressed when fewer than 10 deaths were reported over the five year time period for the specific cancer. The suppressed counts, however, are included in the counts and rates for All Sites combined.

Abbreviations: CNS, Central Nervous System; NOS, Not Otherwise Specified; S.E., Standard Error

Rates are per 100,000 population and were age-adjusted using 20 age groups to the 2000 U.S. Standard Population as well as the World (WHO 2000-2025) Standard Population.

N/A Information about data not collected.

* Counts and rates are suppressed when fewer than 10 deaths were reported over the five year time period for the specific cancer. The suppressed counts, however, are included in the counts and rates for All Sites combined.

Rates are per 100,000 population and were age-adjusted using 20 age groups to the 2000 U.S. Standard Population as well as the World (WHO 2000-2025) Standard Population.

N/A Information about data not collected.

* Counts and rates are suppressed when fewer than 10 deaths were reported over the five year time period for the specific cancer. The suppressed counts, however, are included in the counts and rates for All Sites combined.

Abbreviations: CNS, Central Nervous System; NOS, Not Otherwise Specified; S.E., Standard Error

Rates are per 100,000 population and were age-adjusted using 20 age groups to the 2000 U.S. Standard Population as well as the World (WHO 2000-2025) Standard Population.

N/A Information about data not collected.

* Counts and rates are suppressed when fewer than 10 deaths were reported over the five year time period for the specific cancer. The suppressed counts, however, are included in the counts and rates for All Sites combined.

Abbreviations: CNS, Central Nervous System; NOS, Not Otherwise Specified; S.E., Standard Error

Rates are per 100,000 population and were age-adjusted using 20 age groups to the 2000 U.S. Standard Population as well as the World (WHO 2000-2025) Standard Population.

N/A Information about data not collected.

* Counts and rates are suppressed when fewer than 10 deaths were reported over the five year time period for the specific cancer. The suppressed counts, however, are included in the counts and rates for All Sites combined.

Abbreviations: CNS, Central Nervous System; NOS, Not Otherwise Specified; S.E., Standard Error

Rates are per 100,000 population and were age-adjusted using 20 age groups to the 2000 U.S. Standard Population as well as the World (WHO 2000-2025) Standard Population.

N/A Information about data not collected.

* Counts and rates are suppressed when fewer than 10 deaths were reported over the five year time period for the specific cancer. The suppressed counts, however, are included in the counts and rates for All Sites combined.

Rates are per 100,000 population and were age-adjusted using 20 age groups to the 2000 U.S. Standard Population as well as the World (WHO 2000-2025) Standard Population.

N/A Information about data not collected.

* Counts and rates are suppressed when fewer than 10 deaths were reported over the five year time period for the specific cancer. The suppressed counts, however, are included in the counts and rates for All Sites combined.

Abbreviations: CAN, Canadian; CNS, Central Nervous System; NOS, Not Otherwise Specified; S.E., Standard Error

Rates are per 100,000 population and were age-adjusted using 20 age groups to the 2011 Canadian Standard Population as well as the World (WHO 2000-2025) Standard Population.

N/A Information about data not collected.

* Counts and rates are suppressed when fewer than 10 deaths were reported over the five year time period for the specific cancer. The suppressed counts, however, are included in the counts and rates for All Sites combined.

Abbreviations: CAN, Canadian; CNS, Central Nervous System; NOS, Not Otherwise Specified; S.E., Standard Error

Rates are per 100,000 population and were age-adjusted using 20 age groups to the 2011 Canadian Standard Population as well as the World (WHO 2000-2025) Standard Population.

N/A Information about data not collected.

* Counts and rates are suppressed when fewer than 10 deaths were reported over the five year time period for the specific cancer. The suppressed counts, however, are included in the counts and rates for All Sites combined.

Abbreviations: CAN, Canadian; CNS, Central Nervous System; NOS, Not Otherwise Specified; S.E., Standard Error

Rates are per 100,000 population and were age-adjusted using 20 age groups to the 2011 Canadian Standard Population as well as the World (WHO 2000-2025) Standard Population.

N/A Information about data not collected.

* Counts and rates are suppressed when fewer than 10 deaths were reported over the five year time period for the specific cancer. The suppressed counts, however, are included in the counts and rates for All Sites combined.

Abbreviations: CAN, Canadian; CNS, Central Nervous System; NOS, Not Otherwise Specified; S.E., Standard Error

Rates are per 100,000 population and were age-adjusted using 20 age groups to the 2011 Canadian Standard Population as well as the World (WHO 2000-2025) Standard Population.

N/A Information about data not collected.

* Counts and rates are suppressed when fewer than 10 deaths were reported over the five year time period for the specific cancer. The suppressed counts, however, are included in the counts and rates for All Sites combined.

Abbreviations: CAN, Canadian; CNS, Central Nervous System; NOS, Not Otherwise Specified; S.E., Standard Error

Rates are per 100,000 population and were age-adjusted using 20 age groups to the 2011 Canadian Standard Population as well as the World (WHO 2000-2025) Standard Population.

N/A Information about data not collected.

* Counts and rates are suppressed when fewer than 10 deaths were reported over the five year time period for the specific cancer. The suppressed counts, however, are included in the counts and rates for All Sites combined.

Abbreviations: CAN, Canadian; CNS, Central Nervous System; NOS, Not Otherwise Specified; S.E., Standard Error

Rates are per 100,000 population and were age-adjusted using 20 age groups to the 2011 Canadian Standard Population as well as the World (WHO 2000-2025) Standard Population.

N/A Information about data not collected.

* Counts and rates are suppressed when fewer than 10 deaths were reported over the five year time period for the specific cancer. The suppressed counts, however, are included in the counts and rates for All Sites combined.

Abbreviations: CAN, Canadian; CNS, Central Nervous System; NOS, Not Otherwise Specified; S.E., Standard Error

Rates are per 100,000 population and were age-adjusted using 20 age groups to the 2011 Canadian Standard Population as well as the World (WHO 2000-2025) Standard Population.

N/A Information about data not collected.

* Counts and rates are suppressed when fewer than 10 deaths were reported over the five year time period for the specific cancer. The suppressed counts, however, are included in the counts and rates for All Sites combined.

Abbreviations: CAN, Canadian; CNS, Central Nervous System; NOS, Not Otherwise Specified; S.E., Standard Error

Rates are per 100,000 population and were age-adjusted using 20 age groups to the 2011 Canadian Standard Population as well as the World (WHO 2000-2025) Standard Population.

N/A Information about data not collected.

* Counts and rates are suppressed when fewer than 10 deaths were reported over the five year time period for the specific cancer. The suppressed counts, however, are included in the counts and rates for All Sites combined.

Abbreviations: CAN, Canadian; CNS, Central Nervous System; NOS, Not Otherwise Specified; S.E., Standard Error

Rates are per 100,000 population and were age-adjusted using 20 age groups to the 2011 Canadian Standard Population as well as the World (WHO 2000-2025) Standard Population.

N/A Information about data not collected.

* Counts and rates are suppressed when fewer than 10 deaths were reported over the five year time period for the specific cancer. The suppressed counts, however, are included in the counts and rates for All Sites combined.

Abbreviations: CAN, Canadian; CNS, Central Nervous System; NOS, Not Otherwise Specified; S.E., Standard Error

Rates are per 100,000 population and were age-adjusted using 20 age groups to the 2011 Canadian Standard Population as well as the World (WHO 2000-2025) Standard Population.

N/A Information about data not collected.

* Counts and rates are suppressed when fewer than 10 deaths were reported over the five year time period for the specific cancer. The suppressed counts, however, are included in the counts and rates for All Sites combined.

Abbreviations: CAN, Canadian; CNS, Central Nervous System; NOS, Not Otherwise Specified; S.E., Standard Error

Rates are per 100,000 population and were age-adjusted using 20 age groups to the 2011 Canadian Standard Population as well as the World (WHO 2000-2025) Standard Population.

N/A Information about data not collected.

* Counts and rates are suppressed when fewer than 10 deaths were reported over the five year time period for the specific cancer. The suppressed counts, however, are included in the counts and rates for All Sites combined.

Abbreviations: CAN, Canadian; CNS, Central Nervous System; NOS, Not Otherwise Specified; S.E., Standard Error

Rates are per 100,000 population and were age-adjusted using 20 age groups to the 2011 Canadian Standard Population as well as the World (WHO 2000-2025) Standard Population.

N/A Information about data not collected.

* Counts and rates are suppressed when fewer than 10 deaths were reported over the five year time period for the specific cancer. The suppressed counts, however, are included in the counts and rates for All Sites combined.

Abbreviations: CAN, Canadian; CNS, Central Nervous System; NOS, Not Otherwise Specified; S.E., Standard Error

Rates are per 100,000 population and were age-adjusted using 20 age groups to the 2011 Canadian Standard Population as well as the World (WHO 2000-2025) Standard Population.

N/A Information about data not collected.

* Counts and rates are suppressed when fewer than 10 deaths were reported over the five year time period for the specific cancer. The suppressed counts, however, are included in the counts and rates for All Sites combined.

Abbreviations: CAN, Canadian; CNS, Central Nervous System; NOS, Not Otherwise Specified; S.E., Standard Error

Rates are per 100,000 population and were age-adjusted using 20 age groups to the 2011 Canadian Standard Population as well as the World (WHO 2000-2025) Standard Population.

N/A Information about data not collected.

* Counts and rates are suppressed when fewer than 10 deaths were reported over the five year time period for the specific cancer. The suppressed counts, however, are included in the counts and rates for All Sites combined.

Rates are per 100,000 population and were age-adjusted using 20 age groups to the 2011 Canadian Standard Population as well as the World (WHO 2000-2025) Standard Population.

N/A Information about data not collected.

* Counts and rates are suppressed when fewer than 10 deaths were reported over the five year time period for the specific cancer. The suppressed counts, however, are included in the counts and rates for All Sites combined.

Rates are per 100,000 and were age-adjusted using 20 age groups to the World (WHO 2000-2025) Standard Population.

* Counts and rates are suppressed when fewer than 10 deaths were reported over the five year time period for the specific cancer. The suppressed counts, however, are included in the counts and rates for U.S. combined.

Rates are per 100,000 and were age-adjusted using 20 age groups to the World (WHO 2000-2025) Standard Population.

* Counts and rates are suppressed when fewer than 10 deaths were reported over the five year time period for the specific cancer. The suppressed counts, however, are included in the counts and rates for U.S. combined.

Abbreviations: CNS, Central Nervous System; NOS, Not Otherwise Specified; PRCDA, Indian Health Services Purchased/Referred Care Delivery Area; S.E., Standard Error

Rates are per 100,000 population and were age-adjusted using 20 age groups to the 2000 U.S. Standard Population as well as the World (WHO 2000-2025) Standard Population.

N/A Information about data not collected.

* Counts and rates are suppressed when fewer than 10 deaths were reported over the five year time period for the specific cancer. The suppressed counts, however, are included in the counts and rates for All Sites combined.

Rates are per 100,000 population and were age-adjusted using 20 age groups to the 2000 U.S. Standard Population as well as the World (WHO 2000-2025) Standard Population.

N/A Information about data not collected.

* Counts and rates are suppressed when fewer than 10 deaths were reported over the five year time period for the specific cancer. The suppressed counts, however, are included in the counts and rates for All Sites combined.
