Each webinar package includes a single primary connection and multiple remote connections.

- Primary Connection: Unlimited viewers (and CE credit eligibility) from a single location. Viewers can include both affiliated and unaffiliated individuals (e.g., a shared conference room).
- Remote Connections: Designated for staff affiliated with the purchasing organization. Each remote connection allows individual access from separate locations (e.g., different computer within same building or from home).

The base package includes primary connection and 5 remote options. Upgrade to 8, 10, or 15 remote connections to accommodate more staff members across your organization.

Recordings of the webinar may be shared with all staff or individuals associated with your organization.

For more information contact Jim Hofferkamp or Angela Martin.

Ensure your team stays current with best practices, coding updates, and registry guidelines!
