6

V25B Changes

- PathCHART – Changes in status for 2024 and 2025
- Corrections in edit descriptions and logic
- Updates to edits requiring review for site/histology combinations by age
- Updates in edit logic to reduce edit runtime
- Updates to edits checking new EOD Regional Nodes codes for digestive sites
- New edits

North American Association of Central Cancer Registries

7

Changes Spreadsheet v25B–Corrections Page

- Changes based on reports from users, edit review, and CPC table review
- Tables
 - Corrections to tables used to check AJCC ID assignment by site and histology
 - PathCHART and PathCHART 2025– site/histology combinations with status changes
 - Status 1 – valid, included in table
 - Status 2 – unlikely, must be reviewed, not included in table
 - Status 3 – biologically impossible, included in table
 - Status for many gynecologic and pediatric combinations affected
- Edits
 - Logic corrected for edits checking Schema Discriminator by site/histology
 - Logic corrected for edits checking that SSDIs common to the standard metafile and the pediatric metafile are not used for other SSDIs or pediatric IDs

North American Association of Central Cancer Registries

8

Deleted Edits – V25B

- N6841 – QC-Chk, Primary Site, Urothelial Histologies (NAACCR)
- N6802 – Schema Discriminator 2, Head and Neck Histology (NAACCR)

9

Changes Spreadsheet v25B Updates Page

- Changes based on review of edits and updated resources
- Multiple fields – date of implementation added
- Edits requiring review for site/histology combinations by age
 - Adult – Hepatoblastoma added
 - Pediatric – Updated with 2017 ICC (International Classification of Childhood Cancer) list plus additional histologies, logic reformatted to use table lookup
- Multiple edits updated to return Schema name in error message only if edit fails – impact on edit runtime
- Updates to edits checking new EOD Regional Nodes codes for digestive sites, allowing for coding nodal findings when neoadjuvant treatment administered
- Medicare Beneficiary Identifier – updated to check based on CMS requirements

10

Changes Spreadsheet v25B – New Page

- Changes based on requests, standards review
- Tables – Age_Site_Ref; Pediatric_AGESTGP
