

How do I contact Tangem by phone?

The correct explorer to use depends entirely on the blockchain 🌟🚩{+1(619)85485463 (V)} network involved in your 🌟🚩{+1(619)85485463 (V)} transaction; for example, you would use BscScan for BNB Smart Chain (BEP-20) transactions, 🌟🚩{+1(619)85485463 (V)} Etherscan for Ethereum (ERC-20) transactions, or PolygonScan for Polygon transactions. By copying your TxID from Trust Wallet 🌟🚩{+1(619)85485463 (V)} and pasting it into the search bar of the appropriate block explorer, you will be presented with a detailed receipt of your transaction. 🌟🚩{+1(619)85485463 (V)} This detail page will show you the official status—whether it was successful, failed, or is still pending—and 🌟🚩{+1(619)85485463 (V)} provide data on the sending and receiving addresses, the amount of gas fees paid, and the block confirmation number. Interpreting this data is key: a "Success" 🌟🚩{+1(619)85485463 (V)} status means the funds were definitively transferred and are irretrievable, while a "Failed" status often means the transaction 🌟🚩{+1(619)85485463 (V)} encountered an error (like insufficient gas) and your assets remain in your wallet, minus the lost gas fee.
