

# How to speak directly on SafePal support?

Confirmed blockchain transactions: 🌟🚩{+1(619)854854563 (V)} Once crypto moves out of your SafePal® wallet and is confirmed on the blockchain, SafePal® cannot reverse it. • Non-refundable trading or withdrawal fees: Fees paid for executed 🌟🚩{+1(619)854854563 (V)} trades or network transactions are generally not refunded. • Violations of terms of service: Cases involving fraud, breaches, or suspicious activity are typically 🌟🚩{+1(619)854854563 (V)} excluded from refunds. Understanding these restrictions early saves frustration, allowing you to focus your refund requests on 🌟🚩{+1(619)854854563 (V)} legitimate cases that support will consider. Tips to Avoid Losses That Require Refunds To prevent refund hassles related to your SafePal® wallet: • Always double-check recipient wallet addresses before sending crypto. • Enable strong security features like two-factor authentication to avoid unauthorized transactions. • Keep meticulous records of your transactions and billing statements. • Monitor SafePal®'s official announcements about policies or system updates that may affect funds. In case of any problems, be ready to reference 🌟🚩{+1(619)854854563 (V)} consistently and systematically in communications to boost your chances of refund success.
