Dear Ms. Knight,

I am authorized to attest that Information Management Services Inc. has taken the necessary measures to securely delete all data as specified in Attachment A of the NAACCR Inc. Call for Data Assurances Agreement. All electronic files were rendered unreadable to not allow retrieval of any data. Please note that all electronic backups will be automatically deleted after 1 year.

The following data was deleted:

- Original XML data files submitted by registries for the 2022 Call for Data submission (1995-2020 dx years).
- Intermediate data files, which are files used to build any SEER*Stat database and include recoded variables, from the data submission 5 years prior (2020 Call for Data: 1995-2018 dx year). Intermediate files used to build any delay-adjusted SEER*Stat database are kept.
- All files from the 2023 Call for Data submission that include census tract.

Please let me know if you have any questions.

Thank you,

Donald T. Green
