State-Specific v26 Edits Metafile Information

November 4, 2025

The West Virginia Cancer Registry (WVCR) does not require or maintain custom fields. The WVCR therefore will not be posting a custom v26 edits metafile.

Software vendors should use the most current NAACCR v26 Standard Edits Metafile for West Virginia facilities. CoC facilities will of course clear edits in the “Hosp: Vs25 COC Required” edit set. All facilities should clear edits in the “Central: Vs25 State Example – Incoming Abstracts” edit set before submitting cases to the central registry.

Questions can be directed to Myra Fernatt, Data Manager, at Myra.N.Fernatt@wv.gov or (304) 352-6254.
