West Virginia Cancer Registry

State-Specific v27 Edits Metafile Information

October 8, 2026

The West Virginia Cancer Registry does not require or maintain custom fields. We therefore will not be posting a custom v27 edits metafile.

Software vendors should use the most current NAACCR v27 Standard Edits Metafile for West Virginia facilities. CoC facilities will of course clear edits in the "Hosp: Vs27 COC Required" edit set. All facilities should clear edits in the "Central: Vs27 State Example – Incoming Abstracts" edit set before submitting cases to the central registry.

Questions can be directed to Myra Fernatt, Data Manager, at Myra.N.Fernatt@wv.gov or (304) 352-6254.
